Society The Basics Books A La Carte Edition 14th Edition:

Society John J. Macionis, 2016-01-13 *The Rise and Fall of the Italian Film Industry* Marina Nicoli, 2016-12-08 Italian cinema triumphed globally in the 1960s with directors such as Rossellini, Fellini, and Leone and actors like Sophia Loren and Marcello Mastroianni known to audiences around the world. But by the end of the 1980s the Italian film industry was all but dead. *The Rise and Fall of the Italian Film Industry* traces the rise of the industry from its origins in the 19th century to its worldwide success in the 1960s and its rapid decline in the subsequent decades. It does so by looking at cinema as an institution subject to the interplay between the spheres of art, business, and politics at the national and international level. By examining the roles of a wide range of stakeholders including film directors, producers, exhibitors, the public, and the critics, as well as the system of funding and the influence of governments, author Marina Nicoli demonstrates that the Italian film industry succeeded when all three spheres were aligned but suffered and ultimately failed when they each pursued contradictory objectives. This in-depth case study makes an important contribution to the long-standing debate about promoting and protecting domestic cultures, particularly in the face of culturally dominant and politically and economically powerful creative industries from the United States. *The Rise and Fall of the Italian Film Industry* will be of particular interest to business and economic historians, cinema historians, media specialists, and cultural economists. *Society* John J. Macionis, 2014-02-06 *Seeing Sociology in your Everyday Life* With a complete theoretical framework and a global perspective, *Society: The Basics* 13e offers students an accessible and relevant introduction to sociology. John Macionis, author of the best-selling *Introductory Sociology* franchise over the last three decades, empowers students to see the world around them through a sociological lens, helping them to better understand their own lives. This informative, engaging, and entertaining title will change the way readers see the world and open the door to many new opportunities. MySocLab is an integral part of the Macionis learning program. Engaging activities and assessments provide a teaching and learning system that helps students see the world through a sociological lens. With MySocLab, students can develop critical thinking skills through writing, explore real-world data through the new Social Explorer, and watch the latest entries in the Core Concept Video Series. *Society: The Basics*, Thirteenth Edition, is also available via REVEL, an immersive learning experience designed for the way today's students read, think, and learn. Learn more. *Education, Modernity, and Fractured Meaning* Donald W. Oliver, 1989-07-18 An indictment of the ideology of modernity which has resulted in our leading incoherent and fragmented lives, Oliver and Gershman's book explores the profound paradigmatic differences that exist among the world's people and describes a rich theory of knowing and being, commonly called process philosophy. The promise of process philosophy is in its potential to allow us to participate more fully in the flow of all of time and nature. But what does it mean for a teacher and student in the learning situation to have a process point of view? The authors also discuss many of the various implications in regard to language, space, power, relationships, and time as they place process philosophy in the educational context. **General**
