Biohackers Magazine Issue 9 Biohackers Magazine , The importance of continual self improvement and development cannot be understated especially in the world of biohacking But there is also something that cannot be overstated in this same realm of personal health and growth and that is the vital role that women play Often argued and affirmed as the more intuitive of the 2 sexes women have and continue to push themselves and their community towards their health wellness and wisdom goals In a lot of ways men have it easy Our bodies instruction manual is comparable to a generic IKEA coffee table's guided instructions not a lot to decipher But some could compare women bodies manuals to NASA's rocket construction directions a lot of steps and A LOT to understand Granted the woman's body is easily the more attractive of the two in my opinion and I want it to be clear that although this statement is bias I mean this as a more aesthetic art like manner The symmetry the intricacy the mysteriousness the gracefulness just the way everything connects Perhaps its because of this clear advantage in the beauty category that it takes a lot to master all the processes within it It once was said that in the beginning God first made man but then afterwards he took a long look at him and then told himself

I can do better than that and then made woman Women are at the forefront of biohacking and its clear that the industry would not be where it is today without them Due to women having to figure out all of their complexities but also having the tenacity and courage to do so they have stood side by side with men and helped to share the helpful and needed knowledge of health optimization with the world It is with great pleasure and respect that we dedicate this issue to all of the women in the world striving to promote good health strong lives and clearer minds Although we have had and will continue to have female authors and subject matter in past and future issues every article contained inside this particular issue is either written by a female author or purely feminine in subject matter This is our way to take a moment to highlight and thank all those women out there doing their thing At Biohackers Magazine we believe no we know that every woman s thought and word is just as important as every man s And we are here to provide this magazine as the ontic evidence to that Without further ado enjoy your new woman ful issue

An Interdisciplinary Approach to Aging, Biohacking and Technology

L.F. Carver,2023-12-19 An Interdisciplinary Approach to Aging Biohacking and Technology focuses on a broad range of issues that cover everything from the most basic ways technology and biohacking influence people s everyday lives to concerns about equity globalization and how we humans produce consume and are consumed by our technologies This edited collection looks at the intersection between technology and aging addressing the ways in which technology affects individuals groups local communities and entire populations Contributions from a range of disciplines including sociology philosophy communications medicine and religion provide interdisciplinary perspectives addressing questions such as What is the impact of technology on adult bodies our well being and our safety The book explores risks such as surveillance technology body modification and the Internet as well as issues in the aging journey such as the body and its modification communication privacy and surveillance gerontechnology and aging in place Critically examining the journey of ageing and exploring techniques such as biohacking this book is for students studying aging and technology including courses such as psychology sociology philosophy cultural studies health studies and gerontology It will also be of interest to scholars who are curious about an interdisciplinary approach to age and technology

Food Matters Salman Akhtar, Nina Savelle-Rocklin, 2023-09-14 With contributions from Prachi Akhavi Salman Akhtar Cuneyt Iscan Surreya Iscan Alan Michael Karbelnig Kelsey Leon Clara Mucci Nina Savelle Rocklin Asmita Sharma Julian Stern and Thomas Wolman
Food matters begin even before birth with the absorption of nutrients in the womb and continue through baby feeds family meals school dinners barbecues with friends and romantic meals to the growing dietary restrictions of old age
The role of food is not limited to its life giving necessity but plays a huge role in communal bonding cultural tradition and self expression
Food Matters investigates the significant role that food plays in all of our lives and is divided into three major sections
Mostly biological Mostly psychological and Mostly sociological
Mostly because biology psychology and sociology are not hermetically sealed subject areas and overlaps into other fields are to be expected
Part I Mostly biological consists of two chapters
The first pertains to food and health the second to food and illness
At its core Chapter One aims to undermine the notion of healthy choices and demonstrate a more nuanced vision of what actually builds healthy communities
The varied case material of Chapter Two shows the myriad roles food can play in relation to illness
Part II Mostly psychological has four chapters which respectively address the relationship between food and sexuality aggression narcissism and morality using wide ranging theory and practical case examples
Part III Mostly sociological has three chapters
The first pertains to money the second to immigration and the third to movies again packed with relevant theory and clinical vignettes and in the case of the final chapter using the movies *Waitress* and *Babette's Feast* to show the central role food plays even in our fictional lives
This welcome smorgasbord of ideas from an international array of contributors representing the disciplines of psychiatry psychology psychoanalysis anthropology and gastroenterology will be essential reading for professionals and academics in those fields and will shed fresh light on the subject for anyone with an interest in the multifaceted meanings of food matters

Biohackers Magazine Issue 13 Biohackers Magazine Team , Metaverse Virtual Mixed Reality a New Era for Biohacking
As the medical industry advances into lipid nanoparticle medicines for oncology and infectious disease management the Artificial world is taking another dimension
The pandemic has accelerated this development even further because of the sudden increased need for remote collaboration
In the last decade there is a real buzz for micro dosing psychedelics brainpower and anything related to genetics neuroscience
Virtual Reality Augmented Reality already gives us access to expanded sensory based cognitive experiences but the new category of experience that is

emerging now is Neural Reality When consciousness and the senses are turned inward Neural Reality is complex and rich with information And we are back to the basic Biohacks light and sound effects will be optimized to affect cognitive states in order to perform better feel better and potentially cure psychopathological related cases such as anxiety or PTSD Stay tuned because the future is now the new psychedelic experiences in a fully an immersive environment that matches reality is coming sooner than you think
