Alaban, Joti Devi, Priyanka Singh, Dr. Mufutau Oluwakemi ORIOLA, Dr. Olatunde Olufemi AJAYI, Debarshi Bhattacharyya, 2024-09-01 Promoting sustainable living across seventeen essential areas throughout the planet has been the agenda that was adopted in 2015 by the United Nations with a deadline of 2030. After nine years into the future since 2015, most nations still need to gear up to their full potential to fulfill the targeted development. Although the United Nations has been publishing its annual SGD progress reports since 2016 along with a list of portals where the parameters can be measured for individual nations for each one of the seventeen goals, the perspective of researchers and practitioners provides a unique perspective on the progression. Despite the rigorous attempts from the United Nations regulatory authorities and government initiatives, the gap remains, and the fulfillment of the targets for all seventeen goals till the end of 2023 remains uncertain. The book *Sustainable Development Goals: A Handbook Based on Media Perspective* offers a collection of concepts and perspectives on areas like effective administration, media advocacy, digital literacy, responsible usage, integrating inventory management, greening efforts, digital citizenship, revival of tribal culture, green products, sustainable urbanization, pastors as social media influencers for sustainable development, agrarian sustainability programs, sustainability influencers, sustainability social media activism, women's health representation, empowerment, sustainability in films and entertainment, sustainable living, mindful consumption, climate advocacy, public awareness, waste management, sustainable communication, green practices, environment friendly technology, multiculturalism, environmental communication, democratic governance, health communication, and many more. Collectively, the chapters would help in understanding the different perspectives of sustainability through the lens of media and communication.

The Routledge Introduction to American Life Writing Amy Monticello, Jason

Tucker, 2023-07-31 The stories of lived experience offer powerful representations of a nation's complex and often fractured identity. Personal narratives have taken many forms in American literature. From the letters and journals of the famous and the lesser known to the memoirs of former slaves to hit true crime podcasts to lyric essays to the curated archives we keep on social media, life writing has been a tool of both the influential and the disenfranchised to spark cultural and political evolution to help define the larger identity of the nation and to claim a sense of belonging within it. Taken together, individual stories of real American lives weave a tapestry of history, humanity, and art while raising questions about the veracity of memory and the slippery nature of truth. This volume surveys the forms of life writing that have contributed to the richness of American literature and shaped American discourse. It examines life writing as a rhetorical tool for social change and explores how technological advancement has allowed ordinary Americans to chronicle and share their lives with others.

Imaging Identity Johannes Riquet, Martin Heusser, 2019-11-30. This volume explores the many facets and ongoing transformations of our visual identities in the twentieth and twenty-first centuries. Its chapters engage with the constitution of personal, national, and cultural identities at the intersection of the verbal and the visual across a range of media. They are attentive to how the medialities and immaterialities of modern image culture inflect our conceptions of identity, examining the cultural and political force of literature, films, online video, messages, rap songs, selfies, digital algorithms, social media, computer-generated images, photojournalism, and branding, among others. They also reflect on the image theories that emerged in the same time span from early theorists such as Charles S. Peirce to twentieth-century models like those proposed by Roland Barthes and Jacques Derrida, as well as more recent theories by Jacques Rancière, W. J. T. Mitchell, and others. The contributors of Imaging Identity come from a wide range of disciplines, including literary studies, media studies, art history, tourism studies, and semiotics. The book will appeal to an interdisciplinary readership interested in contemporary visual culture and image theory.

Doing Digital Film History Sarah-Mai Dang, Tim van der Heijden, Christian Gosvig Olesen, 2024-12-30. How has the digital turn shaped the practices of film historical research and teaching? While computational approaches have been used by film historians since the 1960s and 1970s, the arrival and use of digital tools and methods in recent decades has fundamentally changed the ways we search, analyze, interpret, present, and so think and write about film history, from digital archival and curatorial practices, data-driven search, and analysis of film historical

collections to the visualization and dissemination of film historical materials online While film historians have increasingly embraced the new possibilities brought by digital technologies their practical epistemological and methodological implications need further exploration What opportunities does the digitization of film historical sources provide for film historians What new questions can be raised by using digital methods What new perspectives emerge from analyzing interpreting and visualizing film historical data at the levels of both close and distant or scalable reading and viewing By focusing on the concepts tools and practices of digital film historiography this edited volume aims to contribute to a better understanding and critical reflection on the changes and continuities of doing film history in the digital age
