Summa Contra Gentiles Two Creation:

Fakhr-al-Dīn al-Rāzī and Thomas Aquinas on the Question of the Eternity of the World Muammer

Iskenderoglu,2022-06-13 This volume examines the approaches of Fakhr al D n al R z d 1209 and Thomas Aquinas d 1274 to the question of the eternity of the world which was one of the most heated issues of debate between theologians and philosophers in the Middle Ages The first chapter of the book gives some background to the discussion from Greek philosophy early Judaeo Christian and Muslim traditions The second and the third chapters discuss the approaches of R z and Aquinas respectively to the question of the eternity of the world The last chapter compares their approaches brings out some similarities of their approaches between them as well as in relation to their own traditions Islam and Christianity respectively The book tries to show that though they were theologians both R z and Aquinas were more in line with the philosophers than their fellow theologians

The End of Strife Leland Johnson,2014-11-10 The purpose of this book is to explain both the causes for the social and cultural breakdown s in today s world as well as the solutions to our societal regression The causes come from multiple fronts and did not develop in a matter of days weeks months years decades or even generations The degenerative process that has led humanity to the suicidal path it is currently embarked upon has taken several centuries of progressive corruption to reach this point However there is a way to reverse course and heal our society again returning it to its former strength and health The way in which a true peace can be realized in this world will be explained It must be admitted that what it takes to achieve a more universal peace is difficult and burdensome on people for many and various reasons However when the reader looks at the state of the world today it is hopeful that they will choose the difficult and burdensome road required in order to maintain a peaceful civilization rather than the bloody chaos and anarchy transpiring in today s world

Invisible Forces and Powerful Beliefs The Chicago Social Brain Network,2010-10-04 Can religion and science co exist Do they Is religion hardwired in humans The book from the Chicago Social Brain Network is the result of an extraordinary ongoing conversation among a group of highly respected scientists physicians philosophers and theologians Together they share profound insights into the deepest questions humans ask and explore the invisible forces and powerful beliefs that shape our lives Their insights reflect both humanity s latest science and its most enduring wisdom Their answers and questions will challenge readers and reward them with a richer understand of who we are what we share and what it means What do we really know about human nature How do we see what we see know what we know feel what we feel How do people come to believe in God Where does empathy come from What are the health benefits of faith Where do you end and others begin What do marriage family and friendship mean How can people repair the broken connections that keep them lonely

Theological Foundations for Environmental Ethics James Schaefer,2009-05-07 Earth is imperiled Human activities are adversely affecting the land water air and myriad forms of biological life that comprise the ecosystems of our planet Indicators of global warming and holes in the ozone layer inhibit functions vital to the biosphere Environmental

damage to the planet becomes damaging to human health and well being now and into the future and too often that damage affects those who are least able to protect themselves Can religion make a positive contribution to preventing further destruction of biological diversity and ecosystems and threats to our earth Jame Schaefer thinks that it can and she examines the thought of Christian Church fathers and medieval theologians to reveal and retrieve insights that may speak to our current plight By reconstructing the teachings of Augustine Thomas Aquinas and other classic thinkers to reflect our current scientific understanding of the world Schaefer shows how to green the Catholic faith to value the goodness of creation to appreciate the beauty of creation to respect creation s praise for God to acknowledge the kinship of all creatures to use creation with gratitude and restraint and to live virtuously within the earth community Dust Bound for Heaven Reinhard Hütter,2012-10-01 In Dust Bound for Heaven Reinhard Hütter shows how Thomas Aquinas s view of the human being as dust bound for heaven weaves together elements of two questions without fusion or reduction Does humanity still have an insatiable thirst for God that sends each person on an irrepressible religious quest that only the vision of God can quench Or must the human being living after the fall become a new creation in order to be readied for heaven Hütter also applies Thomas s anthropology to a host of pressing contemporary concerns including the modern crisis of faith and reason political theology the relationship between divine grace and human freedom and many more The concluding chapter explores the Christological center of Thomas s theology Kabbalah and the Art of Being Shimon Shokek,2013-10-23 This new approach introduces Kabbalah as a spiritual Jewish way of living a practical wisdom for living creativity and well being and not merely a religious phenomenon or esoteric theology Professor Shokek suggests that the Kabbalistic theme of Creation is the central ingredient in the spiritual teachings of Jewish mysticism He skilfully reveals the core questions that emerge from the wisdom of the Jewish sages opening up a lively avenue of debate in this increasingly popular area of study *Summa Contra Gentiles* Saint Thomas Aquinas,1956 Fundamental Theology Guy Mansini,2018-01-12 Fundamental Theology is fundamental because it is about how we see the mysteries of God his Christ the Church and the sacraments of the Church It is about how these things show themselves how God shows them to the eyes of faith If Christ and the Church are things shown fundamental theology is about the very showing itself Talking about the showing poses the risk however of losing sight of the things shown and drifting off into abstractions By continually referring back to the things shown this book will answer many of the questions that arise when we ask about the nature and necessity of Scripture and Tradition Magisterium and Dogma Faith and its praeambula In this second volume of the *Sacra Doctrina* series Fr Guy Mansini takes the reader on a tour through the essence and meaning of Catholic fundamental theology This title will serve as an excellent textbook for upper level undergraduate graduate and seminary students Book jacket **Bound for Beatitude A Thomistic Study in Eschatology and Ethics** Reinhard Hütter,2019 Bound for Beatitude is about St Thomas Aquinas s theology of beatitude and the journey thereto Consequently the work s topic is the meaning and purpose of human life embedded in that of the whole

cosmos This study is not an antiquarian exercise in the thought of some sundry medieval thinker but an exercise of ressourcement in the philosophical and theological wisdom of one of the most profound theologians of the Catholic Church one whom the Church has canonized granted the title Doctor of the Church and for a long time regarded as the common doctor This exercise of ressourcement takes its methodological cues from the common doctor hence it is an integrated exercise of philosophical dogmatic and moral theology Its specific theological topic the ultimate human end perfect happiness beatitude and the journey thereto stands at the very heart of St Thomas s theology Far from being pass his theology of beatitude is of urgent pertinence as the crisis of humanity and of creation and the exile of God seems to approach its apogee By way of a presentation interpretation and defense of Thomas Aquinas s doctrine of beatitude and the journey thereto Bound for Beatitude advances an argument based on four theses 1 The loss of a theology of beatitude has greatly impoverished contemporary theology In order to succeed and flourish theology must recover a sound teleological orientation 2 In order to recover a sound teleological orientation theology must recover metaphysics as its privileged instrument 3 Thomas Aquinas provides a still pertinent model for how theology might achieve these goals in a metaphysically profound theology of beatitude and the beatific vision Finally 4 Aquinas s rich and sophisticated account of the virtues charts the journey to beatitude in a way that still has analytic force and striking relevance in the early twenty first century

Bessarion's Treasure Sergei Mariev, 2020-12-07 The importance of Bessarion s contribution to the history of Byzantine and Renaissance philosophy and culture during the 15th century is beyond dispute However an adequate appreciation of his contribution still remains a desideratum of scholarly research One serious impediment to scholarly progress is the fact that the critical edition of his main philosophical work In Calumniatorem Platonis is incomplete and that this work has not been translated in its entirety into any modern language yet Same can be stated about several minor but equally important treatises on literary theological and philosophical subjects This makes editing translating and interpreting his literary religious and philosophical works a scholarly priority Papers assembled in this volume highlight a number of philological philosophical and historical aspects that are crucial to our understanding of Bessarion s role in the history of European civilization and to setting the directions of future research in this field
