Mark G. Simkin, James L. Worrell, Arline A. Savage, 2018-02-13 Accounting Information systems AIS have become indispensable in the field and this book provides clear guidance for students or professionals needing to get up to speed. Designed to suit a one semester AIS course at the graduate undergraduate or community college level *Core Concepts of Accounting Information Systems* explores AIS use and processes in the context of modern day accounting. Coverage includes conceptual overviews of data analytics accounting and risk management as well as detailed discussion of business processes, cybercrime, database design and more to provide a well rounded introduction to AIS. Case studies reinforce fundamental concepts using real world scenarios that encourage critical thinking while *AIS at Work* examples illustrate complex procedures or concepts in everyday workplace situations. Test Yourself questions allow students to gauge their level of understanding while End of Chapter questions stimulate application of new skills through problems cases and discussion questions that facilitate classroom dialogue. Practical, current, relevant and grounded in everyday application, this book is an invaluable resource for students of managerial accounting, tax accounting and compliance. **Basic Business Statistics:**

Concepts and Applications Mark Berenson, David Levine, Kathryn A Szabat, Timothy C Krehbiel, 2012-08-24 Student friendly stats. Berenson's fresh conversational writing style and streamlined design helps students with their comprehension of the concepts and creates a thoroughly readable learning experience. *Basic Business Statistics* emphasises the use of statistics to analyse and interpret data and assumes that computer software is an integral part of this analysis. Berenson's real world business focus takes students beyond the pure theory by relating statistical concepts to functional areas of business with real people working in real business environments using statistics to tackle real business challenges. **Statistical Concepts**
