**Santa Fe Light** Richard Leviton, 2009-04 ART CAPITAL TOURIST DESTINATION MODERN ADOBE CITY SANTA FE NEW MEXICO NOW MAY ALSO BE ONE OF AMERICA S MOST IMPORTANT SACRED SITES Santa Fe the City Different has deeply excited visitors for over a hundred years with its crystal blue skies Blood of Christ mountains pure dry air old adobe charm and beautiful light But this high desert State capital and artists haven may also be a Land of Light a premier landscape of multiple sacred sites and heightened spiritual charge People love this place they say for its uplifting spiritually leavening effect for how it starts a process of transformation healing deep change and self reinvention People revere this place as an axis of creativity a hotbed of innovation and a paramount center for recreating culture and spirituality capable of inspiring the world Santa Fe Light explains why An able travel guide it takes you to 111 different locations and their Light temples in and around Santa Fe numinous places usually only encountered in myths or dreams And it proposes that the observed social qualities of Santa Fe its livability might be due to this fabulous visionary geography alluringly just beyond the veil of our ordinary perception Richard Leviton an investigator of visionary terrains for over 25 years provides firsthand accounts of what it s like inside all these Light temples what it s possible to see and experience and how they co create Santa Fe reality The total impact of these on awareness and the feeling for life here he calls Santa Fe Light Touch one Light temple and you open a door into the universe and you suddenly find immediately practical ways to help the campaign with Gaia to restore the Earth

**Hierophantic Landscapes** Richard Leviton, 2011-09-26 The Earth is poised to make a great disclosure Its a hierophant But whats a hierophant A person who reveals the holy light But it can also be a landscape or a planet And whats the holy light It is the structure of reality and consciousness a map of the heavenly realms the engineering blueprint of Creation Some people call this imminent disclosure the Apocalypse and run for cover But that is mistaken Apocalypse means the revelation of the divine revelation It means the end of our picture of the world as we know it The world itself will be fine even better than fine Splendid Illumined The Architect of reality lays down His cards face up and you see the whole deck Here is the truth of yourself and the Earth How will this disclosure work What we call sacred sites and holy landscapes will start revealing themselves in full to us in all their geomantic and visionary richness Thats the inner patterning of their design their arrays of Light temples and subtle palaces primed for our visionary adventures and edification The Earth needs us to have these adventures and visions because thats how we keep the planet healthy Hierophantic Landscapes visits five landscapes from Norway and England to California and Mexico providing firsthand reports on the visions and adventures of a small band of geomancers as they seek to unravel the mysteries of the Earth Maybe not such a small band because along the way we encounter angels landscape devas Nature Spirits and otherworldly mentors and revel in vistas of the ancient past of the Earth when that revelation was as fresh as a sunrise as it will soon be again [The Cattle of the Sun](#) Jeremy McInerney, 2010-05-10 Though Greece is traditionally seen as an agrarian society cattle were essential to Greek communal

life through religious sacrifice and dietary consumption Cattle were also pivotal in mythology gods and heroes stole cattle expected sacrifices of cattle and punished those who failed to provide them The Cattle of the Sun ranges over a wealth of sources both textual and archaeological to explore why these animals mattered to the Greeks how they came to be a key element in Greek thought and behavior and how the Greeks exploited the symbolic value of cattle as a way of structuring social and economic relations Jeremy McInerney explains that cattle s importance began with domestication and pastoralism cattle were nurtured bred killed and eaten Practically useful and symbolically potent cattle became social capital to be exchanged offered to the gods or consumed collectively This circulation of cattle wealth structured Greek society since dedication to the gods sacrifice and feasting constituted the most basic institutions of Greek life McInerney shows that cattle contributed to the growth of sanctuaries in the Greek city states as well as to changes in the economic practices of the Greeks from the Iron Age through the classical period as a monetized market economy developed from an earlier economy of barter and exchange Combining a broad theoretical approach with a careful reading of sources The Cattle of the Sun illustrates the significant position that cattle held in the culture and experiences of the Greeks Some images inside the book are unavailable due to digital copyright restrictions

**The Poetics of Supplication** Kevin Crotty,1994 In this penetrating and compelling reinterpretation of the Iliad and the Odyssey Kevin Crotty explores the connection between the poetic nature of supplication on the one hand and on the other the importance of supplication in the structure and poetics of the two epics The supplicant s attempt to rouse pity by calling to mind a vivid sense of grief he says is important for an understanding of the poems which invite their audience to contemplate scenes of past grieving A poetics of supplication Crotty asserts leads irresistibly to a poetics of the Homeric epic
