Furniture Designers 1900 to the Present highlights the furniture produced by the 20 most important American furniture designers of the 20th and early 21st centuries plus a selection of the best known European designers whose work is sold by Knoll International and Herman Miller. The designers are organized into five chapters. Introductions to each section summarize the evolution of furniture design as it evolved through the 20th and early 21st centuries. The book begins with the Arts and Crafts era before World War I, moves into the interwar period when Modernism gained a foothold in America, continues through the Postwar heyday of Mid-century Modern, highlights the furniture from the 1970s and into the 21st century with a focus on the foremost promoters of modern furniture, Knoll International and Herman Miller, and concludes with a selection of the top Studio Furniture makers and their innovative creations. The book focuses on the leading American designers from each of these periods including Gustav Stickley and Charles Rohlf's during the Arts and Crafts movement, Paul Frankl and Gilbert Rohde in the interwar period, Charles and Ray Eames and George Nelson for Mid-century Modern, and Wendell Castle and George Nakashima for Studio Furniture, to name just a few. All their furniture is explained and profusely illustrated with 280 color photos. For anyone curious about the modern material culture that surrounds them, the book will explain everything about American furniture from 1900 into the 21st century: when it was made, where it was made, who made it, what it was made of, how it was designed, how long it was in production, and how the furniture related to its contemporaries.

Mid-Century Modernism and the American Body Kristina Wilson, 2021-04-13. The first investigation of how race and gender shaped the presentation and marketing of Modernist decor in postwar America. In the world of interior design, mid-century Modernism has left an indelible mark, still seen and felt today in countless open-concept floor plans and spare geometric furnishings. Yet despite our continued fascination, we rarely consider how this iconic design sensibility was marketed to the diverse audiences of its era. Examining advice manuals, advertisements in *Life* and *Ebony*, furniture art, and more, *Mid-Century Modernism and the American Body* offers a powerful new look at how codes of race, gender, and identity influenced and were influenced by Modern design and shaped its presentation to consumers. Taking us to the booming suburban landscape of postwar America, Kristina Wilson demonstrates that the ideals defined by popular Modernist furnishings were far from neutral or race-blind. Advertisers offered this aesthetic to White audiences as a solution for keeping dirt and outsiders at bay, an approach that reinforced middle-class White privilege. By contrast, media arenas such as *Ebony* magazine presented African American readers with an image of Modernism as a style of comfort, security, and social confidence. Wilson shows how etiquette and home decorating manuals served to control women by associating them with the domestic sphere, and she considers how furniture by George Nelson and Charles and Ray Eames, as well as smaller-scale decorative accessories, empowered some users even while constraining others. A striking counter-narrative to conventional histories of design, *Mid-Century Modernism and the American Body* unveils fresh perspectives on one of the most distinctive movements in American visual culture.

Bringing Modernism Home Carol Sue Boram-Hays, 2005. *Bringing Modernism*

Home Ohio Decorative Arts 1890 1960 investigates the manner in which Ohioans were influential in bringing international vanguard movements such as Arts and Crafts Art Deco and Art Moderne out of art galleries and museums and into the domestic realm The book is illustrated with more than 120 color and black and white photographs
