The Changing Adolescent Experience The Changing Adolescent Experience:

The Changing Adolescent Experience Jeylan T. Mortimer, Reed W. Larson, 2002-09-05 The path adolescents take from childhood to adulthood is a product of social economic political and technological forces These forces may facilitate youth's preparation to become healthy adults or they may leave youth unprepared for adulthood Knowledgeable projections are vital in shaping the agenda for research for alerting educators policy makers and practitioners to new issues and for formulating thoughtful responses to emerging dilemmas This book focuses upon the future of adolescence in postindustrial societies The authors identify some ominous societal changes that will affect youth unstable job markets competition for public resources due to an aging population and widening income gaps between information workers and low skill workers But they also observe opportunities created by information technology innovations in health service delivery and criminal justice rehabilitation and the resourcefulness of a new generation This volume examines these and other macro structural changes that will impact adolescents lives and their futures as adults

Changing Adolescence Ann Hagell, 2012-03-15 The general well being of British adolescents has been the topic of considerable debate in recent years but too often this is based on myth rather than fact Are today's young people more stressed anxious distressed or antisocial than they used to be What does research evidence tell us about the adolescent experience today and how it has changed over time And how do trends in adolescent well being since the 1970s relate to changes in education leisure communities and family life in that time This unique volume brings together the main findings from the Nuffield Foundation's Changing Adolescence Programme and explores how social change may affect young people's behaviour mental health and transitions toward adulthood As well as critiquing research evidence which will be of interest to a wide academic audience the book will inform the wider debate on this subject among policy makers and service providers voluntary organisations and campaign groups
