The Collapse Of Yugoslavia 1991 1999 Essential Histories:

Byman, Kenneth M. Pollack, 2008-03-01 Iraq is rapidly descending into all out civil war Unfortunately the United States probably will not be able to just walk away from the chaos Even setting aside the humanitarian nightmare that will ensue a full scale civil war would likely consume more than Iraq historically such massive conflicts have often had highly deleterious effects on neighboring countries and other outside states Spillover from an Iraq civil war could be disastrous Thus begins this sobering analysis of what the near future of Iraq could look like and what America can do to reduce the threat of wider conflict Preventing spillover of the Iraqi conflict into neighboring states must be a top priority In explaining how that can be accomplished

Daniel Byman and Kenneth Pollack draw on their own considerable expertise as well as relevant precedents. The authors scrutinize several recent civil wars including Lebanon, Chechnya, Afghanistan, Kosovo, and Bosnia. After synthesizing those experiences into lessons on how civil wars affect other nations, Byman and Pollack draw from them to produce recommendations for U.S. policy. Even while the Bush Administration attempts to prevent further deterioration of the situation in Iraq, it needs to be planning how to deal with a full-scale civil war if one develops. *Entrepreneurship Education at Universities* Christine K. Volkmann, David B. Audretsch, 2017-06-15 This volume discusses entrepreneurship education in Europe on the basis of in-depth case studies of related activities at twenty higher education institutions. Based on a model of entrepreneurship education, the analysis addresses curricular and extra-curricular teaching as well as the institutional and stakeholder context of delivering entrepreneurship education within higher educational institutions. The book offers both insightful entrepreneurship teaching practices and a discussion of potential organizational drivers and barriers. Accordingly, it provides a valuable resource for researchers, instructors, and managers of entrepreneurship education alike. **The Collapse of Yugoslavia** Alastair Finlan, 2022-03-17 An accessible illustrated introduction to the brutal conflict in the former Yugoslavia, one of the greatest yet least understood tragedies of the 20th century. In 1991, an ethnically diverse and peaceful region of Europe descended into violence, lawlessness, bitter hatred, and chaos almost overnight to the bewilderment of international observers. Communities fractured along lines of ethnic and religious affiliation, and the ensuing fighting was deeply personal, resulting in horrific brutality, rape, torture, and genocide, causing the deaths of thousands of people. Drawing on the latest research, for this new edition Alastair Finlan examines the internal upheavals of the former Yugoslavia and their international implications, including the failure of the Vance-Owen plan, the first use of NATO in a combat role, and in peace enforcement, and the war in Kosovo, unsanctioned by the UN but prosecuted by NATO forces to prevent the ethnic cleansing of the region. Updated and revised with specially commissioned colour maps and all new images throughout, this is a concise overview of the tragic conflict in former Yugoslavia and its significant consequences. **The School Librarian**, 2005

Riot Control Vehicles Chris McNab, 2015-02-20 Fully illustrated with dramatic archive photos and manufacturers' images, this volume covers the little-known history of riot control vehicles. It explores the world of these vehicles from 1945 through to the present day, from adapted military armoured cars such as the Humber Pig (UK) and BRDM (Soviet Union) to the fully computerized systems of the Russian Lavina-Uragan and Canadian INKAS Armored Riot Control Vehicle, showing how their development and deployment has blurred the lines between civilian actions and military operations. Chris McNab charts how the vehicles have evolved in terms of technology and layout, and also details how the associated weapon systems have been refined over time, from water cannon and tear gas launchers to subsonic sound waves and microwave energy. The operational history of the vehicles is explained in the dramatic context of major incidents across the world, from the streets of Northern Ireland and Eastern Europe to the favelas of Brazil and the battlegrounds of Iraq. Tell It to the World Elliott

Behar, 2014-12-27 Hilary Weston Writers Trust Prize for Nonfiction Shortlisted On April 5 1999 Serbian police found a truck half submerged in the Danube River When they looked inside they found it filled with human bodies Following orders they hid the truck and its contents Two weeks later on the other side of Serbia the same thing happened The full picture would only emerge years later when the International Criminal Tribunal for the Former Yugoslavia investigated and prosecuted the chief architects of the ethnic cleansing of Kosovo These cases which formally came to a close in 2014 exposed a secret campaign to hide terrible crimes by transporting and concealing the bodies of the dead In *Tell It to the World* Elliott Behar a former war crimes prosecutor tells the true story of what unfolded He examines the causes and consequences of mass violence identifying a powerful and disturbing connection between the justice we seek and the injustices we commit
