The Campaigns Of Alexander Penguin Classics:

The Campaigns of Alexander Arrian, 1976-10-28 His passion was for glory only and in that he was insatiable Although written over four hundred years after Alexander's death Arrian's Campaigns of Alexander is the most reliable account of the man and his achievements we have Arrian's own experience as a military commander gave him unique insights into the life of the world's greatest conqueror He tells of Alexander's violent suppression of the Theban rebellion his total defeat of Persia and his campaigns through Egypt India and Babylon establishing new cities and destroying others in his path While Alexander emerges from this record as an unparalleled and charismatic leader Arrian succeeds brilliantly in creating an objective and fully rounded portrait of a man of boundless ambition who was exposed to the temptations of power and worshipped as a god in his own lifetime Aubrey de Sincourt's vivid translation is accompanied by J R Hamilton's introduction which discusses Arrian's life and times his synthesis of other classical sources and the composition of Alexander's army The edition also includes maps a list for further reading and a detailed index For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

The Conquest of Persia: Alexander the Strategist Cían Harte, 2014-06-10 The Conquest of Persia Alexander the Strategist is an in depth analysis of Alexander the Great s ability as an overall strategist His military prowess leadership qualities and his ability to win a battle has rarely been in doubt His decision making however has been called into question and this book focuses on some of the most crucial strategic decisions he had to make Included are analyses of his initial campaigns to secure the Balkans his decision to siege Halicarnassus and subsequently his bold decision to de mobilise his fleet and seek to destroy the Persian navy by land Additionally analysed is the risky adventure of attempting to breach the seemingly impregnable island city of Tyre his choice to annex Egypt and visit the oracle of Siwa as well as his insistence to march through the Gedrosian Desert on his return to Babylon This book argues that at the most critical junctures of his campaign to take over the Persian Empire Alexander s strategic decision making abilities were found wanting

The Scythians Dennis James Watson, 2016-10-12 The majority of people on Earth are racially mixed largely due to ancient historic clashes between blacks and whites All the ancient nations of antiquity were black The present political situation of blacks in America is due to their lack of knowledge of war philosophy and the use of force and violence in the social organization of the state as well as the liberation of colonial oppression here and in Africa The book shows a white falsification of history There is a war being waged against black people in America and in Africa to maintain an insidious global white supremacy
