The Evolution Delusion Kenneth Lawrence,2008-05 **DEBUNKING THE EVIDENCE BEHIND THE EVOLUTIONIST WORLDVIEW** Throughout the last half of the twentieth century and now into the new millennium the public has been fed a

steady diet of anti Biblical propaganda by an increasingly determined cadre of evolutionist scientists educators and media outlets The result of this concerted effort has been a shifting of public consciousness away from Biblical truth and into a new paradigm in which belief in some form of Darwinian evolution has become a Litmus test of acceptability in our society But is this paradigm shift founded on legitimate scientific evidence The answer to this question is a resounding NO Over the last several decades scientists in widely varied disciplines have refuted much of the evidence behind today s various competing evolution theories The time has finally come to expose evolution for what it is delusion Kenneth Lawrence was born in British Columbia Canada where he currently resides He has had an intense interest in science most of his life A believer in Darwinian evolution for many years Ken became a Christian at the age of twenty three but had difficulty accepting a straightforward reading of the Bible s account of origins for many years In his late forties Ken began to seriously investigate the scientific claims of evolution theory Nearly a decade of personal research has resulted in an invigorated faith in the God of the Bible and in the writing of this book

Objections to Evolution Nirushan Sivanesan,2023-05-11 The theory of evolution as proposed by Charles Darwin in 1859 has been plagued by controversy and criticisms since its inception But in the Western world at least the fight seems to be almost over with evolution being seen by many as a sealed deal The theory has made its way into science textbooks and has firmly lodged itself there Could this be the biggest mistake the scientific community has ever made Objections to Evolution addresses this question It reexamines the evidence for evolution and brings forth a new case against it from a nonreligious perspective This case contains completely unique and thought provoking ideas arguments and theories It asks and answers fundamental questions which have not been addressed previously and attempts to create a revolution in the way we think about our origins

Kalthoff,2021-10-17 Originally published in 1995 *Creation and Evolution in the Early American Scientific Affiliation* is the tenth volume in the series *Creationism in Twentieth Century America* reissued in 2021 The volume comprises of original primary sources from the American Science Affiliation a group formed following an invitation from the president of the Moody Bible Institute in Chicago in answer to the perceived need for an academic society for American Evangelical Scientists to explicate the relationship between science and faith The society confronted the debate between creation and evolution head on leaving a paper trail documenting their thoughts and struggles This diverse and expansive collection includes 53 selections that appeared during the organisation s first two decades and focuses on the encounter between science and American evangelicalism in the twentieth century in particular the debates surrounding the ever increasing preference for evolutionary theory The collection will be of especial interest to natural historians and theologians as well as academics of philosophy and history

Berkhof's Systematic Theology Revised Louis Berkhof,2019-09-06 Considered one of the best books on Systematic Theology ever written it covers all the basics on the reality of God the atonement of Christ and the final state of man and the last things Anyone that wishes to study theology

would be wise to read this book as many in the Reformed tradition hold that this book is a landmark book in its field Now in larger print **The Civic Gospel** William M. Reynolds, Julie A. Webber, 2009-01-01 This book is a result of the times in which we are living These times demand a response When the authors began to write this book it was not popular to dissent against the Bush administration In fact dissent was and still is equated with terrorism Now it might seem that the tide is turning and maybe after the 2008 election some of this nightmare we have been experiencing will change At least that is the optimistic view But there are small traces that the struggle the authors discuss in this book will continue well into the 21st century The intermingling of the political and the religious is still swirling in the present context The Civic Gospel as the authors discuss it is the notion that preaching the Gospel is preaching politics and vice versa This book is about that struggle and the issues related to it
