Louise I. Gerdes

The Closing Of The American Border:

The Closing of the American Border Edward Alden, 2008-09-16 Edward Alden presents a n investigation into the consequences of America s effort to secure its borders since 9 11 The result is a n assessment of the dangers faced by a U S that cuts itself off from the rest of the world Source unknown *Should the U.S. Close Its Borders?* Louise I. Gerdes, 2014-02-17 The Statue of Liberty is a global symbol forever tied to the poem by Emma Lazarus in which Lady Liberty beckons and welcomes all who seek freedom from oppression While the feelings behind this sentiment are obvious the politics around whether a country can take in unlimited numbers of persons are not Now more than ever America s politics on border and immigration control are being hotly debated This volume gathers eyewitness accounts governmental views scientific analysis and newspaper accounts about border control so that your readers can seek answers in one source Readers will learn about the impact of increased border control and enforcement and they will decide for themselves whether it is effective Pull quotes of the most important facts are placed throughout the texts to help readers track the most salient things to consider in crafting their opinion or research U.S. Immigration Policy Council on Foreign Relations. Independent Task Force on U.S. Immigration Policy, Jeb Bush, Thomas F. McLarty, Edward H. Alden, 2009 The Council on Foreign Relations sponsors Independent Task Forces to assess issues of current and critical importance to U S foreign policy and provide policy makers with concrete judgments and recommendations Diverse in backgrounds and perspectives Task Force members aim to reach a meaningful consensus on policy through private and nonpartisan deliberations Once launched Task Forces are independent of CFR and solely responsible for the content of their reports Task Force members are asked to join a consensus signifying that they endorse the general policy thrust and judgments reached by the group though not necessarily every finding and recommendation Each Task Force member also has the option of putting forward an additional or dissenting view Members affiliations are listed for identification purposes only and do not imply institutional endorsement Task Force observers participate in discussions but are not asked to join the consensus Book jacket *The Oxford Handbook of American Immigration and Ethnicity* Ronald H. Bayor, 2016 What is the state of the field of immigration and ethnic history what have scholars learned about previous immigration waves and where is the field heading These are the main questions as historians linguists sociologists and political scientists in this book look at past and contemporary immigration and ethnicity Provided by publisher *America's Covert Border War* Todd Bensman, 2021-02-02 This thirteen year work of journalism finally settles one of the nation s most controversial and politically powerful ideas about the American southern border that Islamic jihadists might infiltrate it and commit terrorist acts Perhaps no other idea about the border has sown more conflict claims counterclaims rebuttals and false narratives on all sides This book provides a first comprehensive neutral baseline of truth about the threat goring oxen on both sides of the partisan divide It documents an ambitious and intrigue laden covert American war on terror effort that stretches from the Mexican border to the tip of South

America Its existence to protect the homeland from terrorist infiltration was often regarded as entirely imagined until migrating jihadists recently started killing and wounding hundreds in Europe Americans concerned by unchecked global migration porous borders and national security also may feel surprised to learn that thousands of long haul migrants from the Islamic world similarly breach the US Mexican border each year among them hardened jihadists despite media insistence that none of this traffic exists It does The secret American campaign has prevented land border infiltration attack on US soil safeguarding an unknowing nation so far from Europe s bloody ongoing experience But this geographically sprawling effort is suffering from denialism and neglect at America s peril just as Europe was before its calamity How much longer can these programs keep America safe without the public recognition that they exist and the needed care and attention that acknowledgment would bring This book is much more than revelation and complaint it provides solutions to better protect the homeland from this chronically misunderstood border threat

North American Borders in Comparative Perspective Guadalupe Correa-Cabrera, Victor Konrad, 2020-04-07 The northern and southern borders and borderlands of the United States should have much in common instead they offer mirror articulations of the complex relationships and engagements between the United States Mexico and Canada In North American Borders in Comparative Perspective leading experts provide a contemporary analysis of how globalization and security imperatives have redefined the shared border regions of these three nations This volume offers a comparative perspective on North American borders and reveals the distinctive nature first of the overportrayed Mexico U S border and then of the largely overlooked Canada U S border The perspectives on either border are rarely compared Essays in this volume bring North American borders into comparative focus the contributors advance the understanding of borders in a variety of theoretical and empirical contexts pertaining to North America with an intense sharing of knowledge ideas and perspectives Adding to the regional analysis of North American borders and borderlands this book cuts across disciplinary and topical areas to provide a balanced comparative view of borders Scholars policy makers and practitioners convey perspectives on current research and understanding of the United States borders with its immediate neighbors Developing current border theories the authors address timely and practical border issues that are significant to our understanding and management of North American borderlands The future of borders demands a deep understanding of borderlands and borders This volume is a major step in that direction Contributors Bruce Agnew Donald K Alper Alan D Bersin Christopher Brown Emmanuel Brunet Jailly Irasema Coronado Guadalupe Correa Cabrera Michelle Keck Victor Konrad Francisco Lara Valencia Tony Payan Kathleen Staudt Rick Van Schoik Christopher Wilson

Immigration Wars Jeb Bush, Clint Bolick, 2013-03-05 The immigration debate has challenged our nation since its founding But today it divides Americans more stridently than ever due to a chronic failure of national leadership by both parties Here at last is an attainable resolution guided by two core principles first immigration is vital to America s future second any enduring resolution must adhere to the rule of law Unfortunately current laws are so cumbersome and irrational that millions have circumvented them and entered the United States illegally taxing our system to the breaking point Jeb Bush and Clint Bolick contend there are other unique factors currently at play America s future population expansion will come solely from immigrants And for the first time the U S must compete with other countries for immigrant workers and their skills In the first book to offer a practical nonpartisan approach Bush and Bolick propose a compelling six point strategy for reworking our policies that begins with erasing all existing outdated immigration structures and starting over From there Immigration Wars details their plan for advancing the national goals that immigration policy is supposed to achieve build a demand driven immigration system increase states autonomy based on varying needs reduce the significant physical risks and financial costs imposed by illegal immigration unite Mexico and America in their common war against drug cartels and educate aspiring citizens in our nation s founding principles and why they still matter Here too is a viable variation of the DREAM Act as a legal status for children brought here illegally and sound strategies for the Republican Party to revitalize their ever decreasing core constituency With Immigration Wars as a beacon of hope Americans can finally solidify a national identity that is based on a set of ideals enriched and reinvigorated by immigrants most of whom fervently embrace our core values family faith hard work education and patriotism
