Visualizing Egypt Paulina Banas, 2025-04-15 Illustrated publications and the role of market forces in shaping representations of Egypt at a time when European colonial interests in the region were at their peak with 80 color and black and white illustrations In the nineteenth

century following Napoleon Bonaparte's 1798 campaign in Egypt new possibilities of travel and improvements in printing technology saw an emergence of publishing ventures in France and Britain dedicated to the production of albums and travel accounts featuring images of Muslim Egypt and Islamic architecture and catering to a growing European fascination with the East Visualizing Egypt analyzes the context and process of production of these highly illustrated publications from their conceptualization to the finished product and its afterlife from marketing to the sales of these books and from circulation to their reception by nineteenth century audiences By tracing the long arduous and often risky publishing journeys of the makers of these books including publishers writers and artists such as the Frenchman mile Prisse d Avennes Paulina Banas reveals a complex terrain of changing market demands collaborations and conflicting views and the unsettled authorship of these works prompting us to think more profoundly about artistic and intellectual exchange in the world of nineteenth century Orientalist book production Visualizing Egypt considers nineteenth century book illustrations on Egypt and the Orient not merely as expressions of enduring ideology and colonial propaganda but as representations shaped by the often overlooked commercial exigencies of the growing publishing industry and the reckless competition within it **The Unseen**

History of International Law Mark Somos, Matthew Cleary, Pablo Dufour, Edward Jones Corredera, Emanuele Salerno, 2025-04-30 The Unseen History of International Law locates and describes almost one thousand surviving copies of the first nine editions of Hugo Grotius *De iure belli ac pacis* IBP published between 1625 and 1650 Meticulously reconstructing the publishing history of these first nine editions and cataloguing copies across hundreds of collections The Unseen History provides fundamental data for reconstructing the impact of IBP across time and space It also examines annotations that thousands of owners and readers have left in IBP copies over four centuries offering original insights into the development of international law Grotius *De iure belli ac pacis* has been commonly regarded as the foundation of modern international law since its first appearance in 1625 Most major international law scholars have engaged with IBP often owning and richly annotating their own copies At key moments including the demise of the Holy Roman Empire the fall of Napoleon and the end of both world wars IBP was reissued with new commentaries by multinational projects devoted to restarting the international order Despite the enormous literature on IBP's reception and influence we cannot fully understand its impact without uncovering the history of IBP as a physical object with hundreds of thousands of unpublished annotations arguing or agreeing with the text updating and adapting its contents Approaching Grotius seminal work as a physical vehicle of the author's the publishers owners and readers engagement The Unseen History radically expands and revises our understanding not only of IBP but also of the academic discipline and lived practice of modern international law over the last four centuries In addition to delving into the first nine editions printing history descriptive bibliography and both Grotius and the publishers marketing and donation strategies the book explores Grotius subsequent impact on pro slavery and abolitionist litigation as a case study of how the census original findings can be applied to specific areas of
