

THE CANDLESTICK COURSE

Steve Nison revolutionized the world of technical analysis when his two bestselling books introduced Japanese candlestick charting techniques to the western world. "Candles," he discovered, can signal shifts in trends and price patterns with amazing accuracy, and these "storyteller" charts also contain powerful applications for today's volatile short-term markets.

In *The Candlestick Course*, Nison breaks new ground once again, from the basics through the more complex stages of pattern recognition. Each chapter includes specific learning objectives, key terms, clear-cut instruction, and practical applications. Plus, each end-of-chapter quiz allows readers to perfect their charting abilities before moving on. This book is the ideal training tool for new comers, and perfect for veterans looking to refine and hone their skills.

Focused on the needs of today's active traders and investors, Nison:

- Provides a solid foundation to candlestick charts—reinforcing key skills as you go
- Reveals how to pinpoint critical market opportunities as they arise, by recognizing key candle signals
- Tests your ability to accurately analyze and interpret candle charts
- Demonstrates how candlestick concepts can trigger potent decision-support tools that can confirm—or enhance—buy/sell signals
- Includes a valuable "progressive charting" case study
- Ties all the aspects of candlesticks together through interactive examples and visual tests

Whether viewed as a supplement to Steve Nison's other books and courses, or as your introduction to candlestick charting, this course book will familiarize you with the intriguing world of *The Morning Star*, *The Hammer*, *The Dark Cloud Cover*—and the many other powerful and precise patterns Nison shares with fellow traders and investors.

Not just a one-time read, *The Candlestick Course* can be used as a valuable reference source, and quick refresher course, time and again.

STEVE NISON, CMT, was the very first to reveal the startling power of candlestick charts to the Western Hemisphere. He is acknowledged as the leading authority on the subject. Steve is the author of the "bibles" of candle charting analysis, *Japanese Candlestick Charting Techniques* and *Beyond Candlesticks*. His work has been highlighted in *The Wall Street Journal*, *Barron's*, *Worth* magazine, *Institutional Investor*, and other publications around the world. Mr. Nison has appeared numerous times on CNBC, and his segment on FNN (the precursor to CNBC) brought in the most viewers that network ever had. He has taught thousands of traders and investors around the world. Mr. Nison holds an MBA in Finance and Investments and was a senior technical analyst at Merrill Lynch and a senior vice president at Dulles Securities. He was among the first to receive the Chartered Market Technician (CMT) designation from the Market Technicians Association (MTA).
