The Christian Future And The Fate Of Earth Ecology And Justice:

The Christian Future and the Fate of Earth Thomas Berry, 2011-03-01 This title collects Berry's signature views on the interconnectedness of both Earth's future and the Christian future. He ponders why Christians have been late in coming to the issue of the environment.

The Wiley Blackwell Companion to Religion and Ecology John Hart, 2017-05-30 In the face of the current environmental crisis which clearly has moral and spiritual dimensions, members of all the world's faiths have come to recognize the critical importance of religion's relationship to ecology. *The Wiley Blackwell Companion to Religion and Ecology* offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world. Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion's relationship to the environment. Initial readings explore the ways traditional concepts of nature in Christianity, Judaism, Islam, Buddhism, and other religious traditions have been shaped by the environmental crisis. Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment. Various conceptual issues and themes that transcend individual traditions, climate change, bioethics, social justice, ecofeminism, and more are then analyzed. Before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism. Timely and thought provoking, *Companion to Religion and Ecology* offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world. With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb.

The Christian Future and the Fate of the Earth Thomas Berry, 2009

God is Green Bob Shore-Goss, 2016-10-28 At this time of climate crisis, here is a practical Christian ecospirituality. It emerges from the pastoral and theological experience of Reverend Robert Shore Goss, who worked with his congregation by making the earth a member of the church by greening worship and by helping the church building and operations attain a carbon neutral footprint. Shore Goss explores an ecospirituality grounded in incarnational compassion. Practicing incarnational compassion means following the lived praxis of Jesus and the commission of the risen Christ as Gardener. Jesus becomes the green face of God. Restrictive Christian spiritualities that exclude the earth as an original blessing of God must expand. This expansion leads to the realization that the incarnation of Christ has deep roots in the earth and the fleshly or biological tissue of life. This book aims to foster ecological conversation in churches and outlines the following practices for congregations: meditating on nature, inviting sermons on green topics, covenanting with the earth, and retrieving the natural elements of the sacraments. These practices help us recover ourselves as fleshly members of the earth and the network of life. If we fall in love with God's creation, says Shore Goss, we will fight against climate change.
