

The background of the book cover features a faded, sepia-toned illustration of medieval figures and architecture. In the upper portion, several figures are depicted, including a man in a white robe and a woman in a white dress. Below them, a large, ornate building with a central tower and arched windows is visible. The overall style is reminiscent of a historical manuscript or a classic painting.

The Civilization of the Middle Ages Norman F. Cantor, 1993 General history of the Middle Ages focusing on medieval culture and religion

Inventing the Middle Ages Norman Cantor, 2023-01-01 The Middle Ages in our cultural imagination are besieged with ideas of wars tournaments plagues saints and kings knights lords and ladies In his era defining work *Inventing the Middle Ages* Norman Cantor shows that these presuppositions are in fact constructs of the twentieth century Through close study of the lives and works of twenty of the twentieth century s most prominent medievalists Cantor examines how the genesis of this fantasy arose in the scholars spiritual and emotional outlooks which influenced their portrayals of the Middle Ages In the course of this vigorous scrutiny of their scholarship he navigates the strong personalities and creative minds involved with deft skill Written with both students and the general public in mind *Inventing the Middle Ages* provided an alternative framework for the teaching of the humanities Revealing the interconnection between medieval civilisation the culture of the twentieth century and our own assumptions Cantor provides a unique standpoint both forwards and backwards As lively and engaging today as when it was first published in 1991 his analysis offers readers the core essentials of the subject in an entertaining and humorous fashion

China and the West to 1600 Steven Wallech, 2016-02-23 A comparative history of Chinese and Western Civilization from the dawn of agriculture to the dawn of modernity in Europe *China and the West to 1600* explores the factors that led to the divergent evolution of two major cultures of the ancient world and considers how the subsequent developments saw one culture cling to tradition even as the other failed to do so inadvertently setting the stage for the birth of the Modern Era An accessible and inventive comparative history suitable for all students at the college level as well as general readers Compares the history of Chinese civilization with Western civilization from the rise of agriculture to the dawn of the modern period Explores the ways in which Western failures in the Middle Ages after the Roman Empire s collapse and China s successes in the same period laid the groundwork for each culture s divergent path in the modern period Makes meaningful connections between cultures and over time through the use of themes such as agriculture philosophy religion and warfare and invasion Bridges the gap between antiquity and modernity looking at many factors of the global Middle Ages that influenced the development of the modern world Features a timeline maps endnotes and complete index

A History of Credit and Power in the Western World Scott B. MacDonald, 2017-07-12 The end of the Cold War put the planet on a new track abruptly replacing the familiar world of bipolarity red phones and intercontinental ballistic missiles with the strange new world of the Internet e commerce and Palm Pilots The New World Order was defined by a U S led war against Iraq bloody ethnic strife in Bosnia and Rwanda and religious turmoil in Central Asia This evolving global system however overlooked the powerful role of credit which functions as a critical building block for developing greater national and individual wealth This volume examines the evolution of credit in the Western world and its relationship to power Spanning several centuries of human endeavor it focuses on Western

Europe and the United States and also considers how the Western system became the global credit system Six major themes run throughout 1 the direct relationship between credit and power 2 different kinds of political power promote different kinds of economic behavior 3 various societal and cultural groups were often more successful in mingling credit and political power 4 the Western credit system evolved in tandem with the development of the nation state 5 historically there has been a pattern of financial crises 6 credit spread from being the privilege of the wealthy and powerful to being available to vast numbers MacDonald and Gastmann have broken history into five periods ranging from early pre modern defining the earliest references to banking and credit as exemplified by the Code of Hammurabi circa 1726 BC through the Roman Empire with its creation of money and growing use of credit in trade the barbarian invasions of the 11th century which led to a breakdown in credit networks in the West through the establishment of the Italian city states to the modern period which incorporates the rise of credit in the Low Countries in the 1500s and extends through the rise of London and New York as the major international credit hubs

The High Middle Ages Norman F. Cantor, 2009-09-15 *Who's Who in the Middle Ages* Mary Ellen Snodgrass, 2024-10-18 From Abelard to Zubaydah here is a biographical dictionary of notable men and women of the Middle Ages Hundreds of entries span the fifth to the fifteenth centuries covering a broad range of creative vigorous and influential people from Europe and the Middle East Each entry includes both personal and historical details alternate name spellings and references for further reading A rich selection of appendices includes a chronology of events a chronology of popes emperors and monarchs a list of colleges and universities of the Middle Ages a list of major monasteries abbeys and convents and an alphabetical list of individuals by occupation

Medieval History Norman F. Cantor, 1969 *The Literature of Hope in the Middle Ages and Today* Flo Keyes, 2006-03-31 The influence of medieval literature is instantly apparent in modern fantasy literature where knights and wizards populate castle strewn landscapes Less obvious but still recognizable is the influence in science fiction which draws on medieval story structure and themes Beyond these superficial similarities deeper connections become evident through an analysis of the literature's social function Like the fantasy and science fiction of today the romances of the Middle Ages were written in times of extreme and prolonged social upheaval In all three genres the storytellers draw on the same archetypes the hero the quest the transformation for stories whose goal is to provide hope Using Jungian theory and comparative analysis this book explores the connections between the three genres It finds common ground among them in plots that often reflect the recurring cycle of life and the elements of psychological rather than literal realism Representative texts such as Malory's *Le Morte D Arthur* the *Witch World* series by Andre Norton and *More Than Human* by Theodore Sturgeon are examined in depth and the use of archetypes in each is thoroughly explored Analysis reveals similarities in images structures and the pervasive belief that a perfectible universe is within man's capabilities if not now then someday

The Third Millennium David Walsh, 1999 This provocative meditation on the turn of the millennium explores the significance that a celebration of Christ's birth can have beyond the Christian community

Writing from the perspective of Christian philosophy David Walsh ponders the emergence of modern civilization from the medieval Christian past concluding that Christian theology grounds the dominant ideas of modern society He professes the importance and promise of Christianity while rejecting the Gnosticism advocated by Harold Bloom and others that places the divine within the self Affirming Christ s place at the heart of civilization Walsh argues that the Christian faith has relevance beyond its own boundaries for all traditions that find their common ground in reason This contemplative book asserts that the Christian millennial jubilee has meaning for all and that it points the way toward the fullness of life in this world as well as in eternity
