The Coalwood Way A Memoir:

The Coalwood Way Homer Hickam, 2007-12-18 It's fall 1959 and Homer Sonny Hickam and his fellow Rocket Boys are in their senior year at Big Creek High launching handbuilt rockets that soar thousands of feet into the West Virginia sky. But in a season traditionally marked by celebrations of the spirit Coalwood finds itself at a painful crossroads. The strains can be felt within the Hickam home where a beleaguered Homer Sr. is resorting to a daring but risky plan to keep the mine alive and his wife Elsie is feeling increasingly isolated from both her family and the townspeople. And Sonny, despite a blossoming relationship with a local girl whose dreams are as big as his, finds his own mood repeatedly darkened by an unexplainable sadness. Eager to rally the town's spirits and make her son's final holiday season at home a memorable one, Elsie enlists Sonny and the Rocket Boys aid in making the Coalwood Christmas Pageant the best ever. But trouble at the mine and the arrival of a beautiful young outsider threaten to tear the community apart when it most needs to come together. And when disaster strikes at home and Elsie's beloved pet squirrel escapes under his watch, Sonny realizes that helping his town and redeeming himself in his mother's eyes may be a bigger and more rewarding challenge than he has ever faced. The result is pure storytelling magic: a tale of small town parades and big hearted preachers, the timeless love of families and unforgettable adventures of boyhood friends that could only come from the man who brought the world Rocket Boys.

Blue Apple Switchback Carrie Highley, 2025-07-30 Carrie Highley was always a tomboy and by the time she turned sixteen she was wishing she were dancing with the girls instead of the boys at cotillion dances. In her early thirties while living in West Virginia she discovered a passion for road biking, finally stopped sequestering her deep feelings for women and began an ill-fated love affair with a female cycling friend. Then at thirty-six she found herself skidding into Asheville, North Carolina, holding on tight to the coattails of her doctor husband and spending her time as a stay-at-home mother of two boys. Moving to North Carolina was Highley's attempt to reembrace heterosexual married life after her tumultuous time in West Virginia. But in Asheville she met Charlie, a fellow cyclist twenty-three years her senior who became her mentor, friend and father all rolled into one, and as they grew closer she started unloading her fears into Charlie's inbox. With Charlie's support Highley finally got the courage to do what she'd been waiting her whole life to do: go down the mountain with her hands off the brakes.

Broadly expanded and thoroughly revised, it boasts 604 entries, nearly double the earlier edition's 264 scholars. Interweaving social political environmental economic and popular history John Alexander Williams chronicles four and a half centuries of the Appalachian past Along the way he explores Appalachia's long contested boundaries and the numerous often contradictory images that have shaped perceptions of the region as both the essence of America and a place apart Williams begins his story in the colonial era and describes the half century of bloody warfare as migrants from Europe and their American born offspring fought and eventually displaced Appalachia's Native American inhabitants He depicts the evolution of a backwoods farm and forest society its divided and unhappy fate during the Civil War and the emergence of a new industrial order as railroads towns and extractive industries penetrated deeper and deeper into the mountains Finally he considers Appalachia's fate in the twentieth century when it became the first American region to suffer widespread deindustrialization and examines the partial renewal created by federal intervention and a small but significant wave of in migration Throughout the book a wide range of Appalachian voices enlivens the analysis and reminds us of the importance of storytelling in the ways the people of Appalachia define themselves and their region *Superhuman Japan* Marie Thorsten, 2012-03-15

This book examines the imaginative narratives that shaped the attitudes of Americans and others toward Japan Focusing on cultural aspects of economic nationalism and US Japan relations during the trade war Marie Thorsten uses examples from public discourse film documentaries novels acts of racism and comparison of international education assessments to examine the way in which Japan has been constituted in a global political gaze as an economic hegemon In times of heightened rivalry we often try to find superior others so that we can motivate ourselves against an imagined future of decline During the Cold War Americans and other nations in the West took advantage of being the underdog against the perceived superiority of the Soviet Union especially by turning the Sputnik launch of 1957 into a lodestone for an educational renaissance As postwar Japanese power became increasingly threatening American policymakers again tried to fashion Japan into another Sputnik to motivate American people This book explores 1980s Bubble Japan as a Superhuman Other in the consciousness of Americans especially as reflected in popular culture and policy discourses Making Japan into a Superhuman often resorted into the same stereotyping that invented Japan as a Subhuman It

was difficult for many to see that America Japan and other nations were actually sharing the same global economic circumstances affecting attitudes toward knowledge and nation This book will be of interest to students and scholars of Japanese politics International Relations and Japanese culture and society **The Best Christian Short Stories** Bret Lott,2006-07-02 The first volume in a collection of contemporary fiction that combines the artistry of critically acclaimed writers with a clear Christian worldview From Homer Hickam the best selling author of Rocket Boys which later became the movie October Sky to editor and contributing best selling author Bret Lott this collection spans a talented community writing an eclectic blend of fiction Each piece stands alone as stellar fiction And each piece confronts us with who we are and forces us to look deeply at the human condition From the dirt lanes of North Africa to the suburbs of California exuding lightheartedness and profundity hilarity and tragedy these stories will take you on a fresh and entertaining journey
