

The Rational Creation

Mark Ian Thomas Robson

The Rational Creation:

A Treatise on the Records of the Creation John Bird Sumner, 1833 **Ontology and Providence in Creation** Mark Ian Thomas Robson, 2008-10-01 Examines and rejects a particular philosophical understanding of the processes of creation ex nihilo taking into account Leibniz s originating thesis and its development in the modern world Creation's Beauty as **Revelation** L. Clifton Edwards, 2014-03-05 With an interdisciplinary approach Edwards utilizes literature aesthetics world religions and continental philosophy as avenues into the theology of natural beauty This is an epistemological look at our aesthetically charged knowing of God through nature Emphasizing our embodied experience of the world Edwards examines the phenomenon of perceptual beauty while questioning traditional notions of God's metaphysical beauty Drawing upon Michael Polanyi s philosophy of science Edwards explores the human aesthetic and religious interface with the natural world This philosophical approach is then linked to the poetic Polanyi's tacit knowledge and Jean Luc Marion's saturated phenomena give support to Wordsworth's pregnant vision of the natural world This approach culminates in a re envisaging of John Ruskin's typology of natural beauty Ruskin's vision of the world can be adapted toward an understanding of natural revelation Edwards brings this Romantic theology back across the Atlantic in dialogue with American nature writers and the uniquely American experience of wilderness and frontier The Sacred and Prophane History of the World Connected, from the Creation of the World to the Dissolution of the Assyrian Empire at the Death of Sardanapalus, and to the Declension of the Kingdoms of Judah and Israel, Under the Reigns of Ahaz and Pekah ... Second Edition Samuel SHUCKFORD, 1810

Knowing the Truth About Creation Norman L. Geisler, 2003-01-02 Are human beings a mere product of the cosmos with no future in eternity Or are we infinitely more valuable than any other creatures on earth Can we put a price tag on human life How should we treat marginal members of society those whiling away empty days in nursing homes the terminally ill the unborn child Norman Geisler believes that many of us have become confused about these vital issues In Knowing the Truth about Creation he delves into the biblical philosophical and scientific case for the Christian view of creation The result is a fascinating look at creation and the Creator A treatise on the records of the Creation, and on the moral attributes of the Creator John Bird Sumner (abp. of Canterbury.),1833 The Philosophy and Writings of Saint Anselm of Canterbury Saint Anselm of Canterbury, Freedom and Self-creation Katherin A. Rogers, 2015 Katherin A Rogers presents a new theory of free will based on the thought of Anselm of Canterbury We did not originally produce ourselves Yet according to Anselm we can engage in self creation freely and responsibly forming our characters by choosing from ourselves a se between open options Anselm introduces a new agent causal libertarianism which is parsimonious in that unlike other agent causal theories it does not appeal to any unique and mysterious powers to explain how the free agent chooses After setting out Anselm's original theory Rogers defends and develops it by addressing a series of standard problems levelled against libertarianism These include the problem of internalism in that an agent is not the source of his original motivations

how can the structure of his choice ground his responsibility the problem of Frankfurt style counterexamples Do we really need open options to choose freely and the problem of luck If nothing about an agent before he chooses explains his choice then isn t the choice just dumb luck The Anselmian answer to this perennial criticism is especially innovative proposing that the critic has the relationship between choices and character exactly backwards Finally as a theory about self creation Anselmian Libertarianism must defend the tracing thesis the claim that an agent can be responsible for character determined choices if he himself formed his character through earlier a se choices Throughout the book defends and exemplifies a new methodological suggestion someone debating free will ought to make his background world view explicit In the on going debate over the possibility of human freedom and responsibility Anselmian Libertarianism constitutes a new and plausible approach The Creator and the Creature, Or, The Wonders of Divine Love Frederick William Faber, 1858 The Mystery Hid from Ages and Generations, Made Manifest by the Gospel-Revelation; Or, the Salvation of All Men the Grand Thing Aimed at in the Scheme of God, ... By One who Wishes Well to the Whole Human Race [C. Chauncy]. ,1784
