The Red Tree Book:

The Red Tree Shaun Tan, 2008-08-01 A small child awakes to find blackened leaves falling from her bedroom ceiling threatening to quietly overwhelm her Sometimes you wake up with nothing to look forward to As she wanders around a world that is complex puzzling and alienating she is overtaken by a myriad of feelings Just as it seems all hope is lost the girl returns to her bedroom to find that a tiny red seedling has grown to fill the room with warm light Astonishing Perth artist Shaun Tan's latest creation THE RED TREE is a book about feelings feelings that can not always be simply expressed in words It is a series of imaginary landscapes conjured up by the wizardry of Shaun Tan's masterful and miraculous art As a kind of fable THE RED TREE seeks to remind us that though some bad feelings are inevitable they are always tempered by hope

The Red Tree Caitlin R. Kiernan, 2009-08-04 Sarah Crowe left Atlanta and the remnants of a tumultuous relationship to live in an old house in rural Rhode Island Within its walls she discovers an unfinished manuscript written by the house's former tenant an anthropologist obsessed with the ancient oak growing on a desolate corner of the property Tied to local legends of supernatural magic as well as documented accidents and murders the gnarled tree takes root in Sarah's imagination prompting her to write her own account of its unsavory history And as the oak continues to possess her dreams and nearly almost all her waking thoughts Sarah risks her health and her sanity to unearth a revelation planted centuries ago

Music and Image in Concert Meghan Stevens, 2009 In *Music and Image in Concert* composer graphic designer and writer Meghan Stevens explores the implications to music when images are presented in music concerts But how do artistic directors ensure that listeners aren't more engaged by the images than the music Stevens presents a number of concepts that aim to maintain musical salience over added image in the instrumental music concert This is to avoid the situation that occurs in film where the music is backgrounded and often not heard or not remembered These concepts cover a range of music image characteristics including narrative synchronisation rhythm tempo meaning emotion structure genre integration interpretation voice and text As there is little research in this new field these original concepts draw on a number of other disciplines including film music video multimedia cognitive psychology psychomusicology education and music philosophy This book provides a practical approach for adding image to the music concert

immediately become not only a great deal more interesting but also acquire a new and vivid relevance for the present day
