The Return Of History And The End Of Dreams:

The Return of History and the End of Dreams Robert Kagan, 2008 Kagan argues that hopes for a new peaceful international order after the end of the Cold War have proved wrong He stresses that peoples of the liberal world need to choose whether they want to shape it or let others shape it for them *Professional Journal of the United States Army*, 2010-03 **Review of Current Military Literature**, 2010 *Normative Pluralism and International Law* Jan Klabbers, Touko Piiparinen, 2013-04-22 This book addresses conflicts involving how law relates normative orders The assumption behind the book is that law no longer automatically claims supremacy but that actors can pick and choose which code to follow The book covers conflicts between legal orders and conflicts involving law and honor self regulation lex mercatoria local social practices bureaucracy religion professional standards and morality Has Africa Shed Its "Third World" Status? and Other Thought-provoking Essays Peter de Haan, 2010 This book is a collection of articles published in Zambia's leading newspaper The Post They deal with a wide range of topics related to economic growth and development Peter de Haan is a development economist who has worked for the United Nations OXFAM and the Netherlands Ministry of Foreign Affairs Embassy in La Paz Bolivia Currently he is First Secretary at the Netherlands Embassy in Lusaka Zambia

The Tragedy of U.S. Foreign Policy Walter A. McDougall, 2018-11-22 A fierce critique of civil religion as the taproot of America's bid for global hegemony Pulitzer Prize winning historian Walter A McDougall argues powerfully that a pervasive but radically changing faith that God is on our side has inspired U S foreign policy ever since 1776 The first comprehensive study of the role played by civil religion in U S foreign relations over the entire course of the country's history McDougall's book explores the deeply infused religious rhetoric that has sustained and driven an otherwise secular republic through peace war and global interventions for more than two hundred years From the Founding Fathers and the crusade for independence to the Monroe Doctrine through World Wars I and II and the decades long Cold War campaign against godless Communism this coruscating polemic reveals the unacknowledged but freely exercised dogmas of civil religion that bind together a God blessed America sustaining the nation in its pursuit of an ever elusive global destiny *Military Review*, 2010 The Secret American Dream: The Creation of a New World Order with the Power to Abolish War, Poverty, and Disease Nicholas Hagger Author, 2013-01-01 Until the present time there have been seven stages of United States expansionism from the Federal unification of the original states to the New World Order planned by US led commercial elites before and after 1989 Extrapolating both from the author's distinctive reading of history and the evidence of President Obama's own speeches and actions The Secret American Dream proposes that the US now faces a new eighth phase of expansion In this the traditional American Dream of peace social order and prosperity would be extended to all humankind This ambitious plan little known and understood outside President Obama's inner circle would involve the creation of a benevolent World State initiated but not dominated by the United States The Secret American Dream suggests that the first

step in establishing the World State a supranational authority with legal powers to abolish war and nuclear weapons would be a visit by the US President to the UN General Assembly requesting a World Constitutional Convention Under the President's proposals the existing UN General Assembly would become an elected 850 seat lower house alongside a new World Senate and an executive called the World Commission A senatorial World Openness Committee would control the world's commercial elites and harness their positive skills and energies Founded on altruistic and philanthropic principles the World State would bring global peace disarmament and the opportunity of prosperity to every individual on Earth The abolition of war and nuclear stockpiles would remove the threat of nuclear war and the possibility of ex Soviet nuclear weapons falling into terrorist hands It would also create a peace dividend of nearly US 1.5 trillion per year which could be spent on eliminating world poverty disease and famine on guaranteeing financial instability and a minimum income for all and on solving energy and environmental problems Initiatives by President Obama in a range of areas such as his recent nuclear disarmament deal with Russia show that he is already taking steps to implement this secret American Dream

No One's World Charles A. Kupchan, 2012-03-01 The world is on the cusp of a global turn Between 1500 and 1800 the West sprinted ahead of other centers of power in Asia and the Middle East Europe and the United States have dominated the world since But today the West's preeminence is slipping away as China India Brazil and other emerging powers rise Although most strategists recognize that the dominance of the West is on the wane they are confident that its founding ideas democracy capitalism and secular nationalism will continue to spread ensuring that the Western order will outlast its primacy In No One's World Charles A Kupchan boldly challenges this view arguing that the world is headed for political and ideological diversity emerging powers will neither defer to the West's lead nor converge toward the Western way The ascent of the West was the product of social and economic conditions unique to Europe and the United States As other regions now rise they are following their own paths to modernity and embracing their own conceptions of domestic and international order Kupchan contends that the Western order will not be displaced by a new great power or dominant political model The twenty first century will not belong to America China Asia or anyone else It will be no one's world For the first time in history an interdependent world will be without a center of gravity or global guardian More than simply diagnosing what lies ahead Kupchan provides a detailed strategy for striking a bargain between the West and the rising rest by fashioning a new consensus on issues of legitimacy sovereignty and governance Thoughtful provocative sweeping in scope this work is nothing less than a global guidebook for the 21st century

Knowledge, Desire and Power in Global Politics Chengxin Pan, 2012-01-01 China threat or China opportunity like beauty is in the eyes of the beholder Western imaginations of China come under close scrutiny in this book in a new philosophical depth seldom attempted before Dr Pan displays in full force his analytical skills and his mastery of knowledge both East and West Contrary to conventional approaches he takes a step back to exercise a powerful reflective process to watch the China watchers with illuminating results Dr Pan's book deserves wide

and careful reading Professor Gerald Chan University of Auckland New Zealand The rise of China is largely seen as either a threat or an opportunity Chengxin Pan exposes both of these representations as expressions of Western fears and desires for certainty and predictability His call for a more reflective and culturally sensitive understanding of China offers an important contribution to one of the big political debates of our time Professor Roland Bleiker University of Queensland Australia This is a brilliant and insightful treatment of Western representations of China with a theoretical framework suggesting they come not only from China itself but also the West Although it is not the first treatment of this topic it is innovative in considering the China threat and China opportunity both aspects of the rise of China are of crucial importance for our times With provocative conclusions it is a truly path breaking contribution to the literature I recommend it highly Emeritus Professor Colin Mackerras Griffith University Australia Pan has produced a book which not only challenges some basic assumptions about the nature of China s rise but more importantly forces us to rethink the very basic starting points of how we know what we know about China Professor Shaun Breslin University of Warwick UK How is the rise of China perceived in the West Why is it often labelled as threat and or opportunity What are the implications of these China imageries for global politics Taking up these important questions this groundbreaking book argues that the dominant Western perceptions of China s rise tell us less about China and more about Western self imagination and its desire for certainty Chengxin Pan expertly illustrates how this desire masked as China knowledge is bound up with the political economy of fears and fantasies thereby both informing and complicating foreign policy practice in Sino Western relations Insofar as this vital relationship is shaped not only by China s rise but also by the way we conceptualise its rise this book makes a compelling case for critical reflection on China watching Knowledge Desire and Power in Global Politics is the first systematic and deconstructive analysis of contemporary Western representation of China s rise Setting itself apart from the mainstream empiricist literature its critical interpretative approach and unconventional and innovative perspective will not only strongly appeal to academics students and the broader reading public but also likely spark debate in the field of Chinese international relations
