The Reflexology Workshop Jenny Hope-Spencer, 2008 *N101 - Foot Reflexology Course* Donald A. Bisson, Ontario College of Reflexology, 2001 **Introduction to Reflexology Workshop** Saskatchewan Institute of Applied Science and Technology. Wascana Institute, 1997* *Emotional Reflexology a Practical Guide 2nd Edition* Jenny Talkington, 2021-02-15

Emotional Reflexology A practical Guide second edition by Jenny Talkington Jenny is a reflexologist workshop leader and artist with over 20 years of experience After completing her initial reflexology training at The Oxford School of Reflexology in 1998 she had an excellent grounding in reflexology that covered not only the physical aspects of Reflexology but it s emotional aspects too Since then through treating her colleagues it became apparent that the basic one year training available no longer incorporated what Jenny took for granted regarding the emotional links and she was constantly being asked about them She was asked by many to write down what she clearly and accurately saw and felt on the feet So she published her first book in 2010 and has run workshops on her first book As a result Jenny has developed and tested her theories on the emotional links even further In this second edition Jenny explains her theories and ideas on the deeper dimensions to a reflexology treatment and offers suggestions and tips to help your clients even more This book is written to help my fellow reflexology colleagues and anyone who is interested in reflexology to gain a deeper understanding of the emotional links that can be found on the feet and how to help balance them More information is available via www.jennytalkington.co.uk

Palm Oil and Coconut Oil Rodney R. Allen-Campbell, 2012-09 In the late 1980s I use to suffer from severe stomach pains All medical tests proved inconclusive and the only advice I was given by my doctor was to take antacid whenever I was in pain I was not satisfied with this advice and started looking for alternative treatments to put an end to my suffering After a year of intense pain my search for a cure led me to Reflexology I had ten sessions of reflexology treatments one treatment a week for ten weeks and the pain disappeared I was so impressed with the treatment I enrolled in a reflexology course and trained as a reflexologist After this experience I became a fan of alternative therapies and started reading magazines in alternative treatments and started attending seminars and workshops in alternative therapies Shortly after qualifying as a reflexologist I enrolled in a course in Stress Management because I

realised that the cause of my previous health problem was stress related and medical science alone was inadequate Whilst receiving reflexology treatment I could feel the stress falling off me and the effect was very therapeutic I was aware that there were tens of thousands of people suffering from conditions that medical science could not adequately treat I decided that with relevant training I could help treat these conditions The more I got involved in the alternative therapies it became apparent to me that in order to maintain good health it was imperative that one incorporates good diet Consequently I obtained a diploma in nutritional medicine In 2010 I was directed to move back to my native land Sierra Leone after being away in the UK for thirty one years to help empower my people My intention was to get Sierra Leoneans to appreciate local produce I had heard people from this country living abroad repeating the propaganda of the vegetable oil industry about palm oil When you think that palm oil has been a major part of the diet of these people for centuries you wonder whether our ancestors got it wrong Did the executives of the vegetable oil industry whose drive was to maximise profits know better than our ancestors who diligently invested in finding natural foods that would keep them alive and healthy It is also my intention to get my people to become aware of the virtues of natural unprocessed foods Red palm oil as is used in Sierra Leone is unrefined wholesome food power packed with antioxidants Antioxidants are the substances that quench free radicals the stuff that cause cancer diabetes cardiovascular diseases and other degenerative diseases Although coconut oil is not as popular as palm oil in the diet of Sierra Leoneans it is I am sure the major source of needed fat in the diet in other parts of the tropics Coconut oil is very special in that it is a medium chain fatty acid MCFA MCFA is in mother s breast milk and has a profound effect on the immune system It is my innate desire to get people to improve their health and maintain good health by turning to nature and taking an active part in their wellness This could prove to be very inexpensive and result in longevity
