The Religious Enlightenment The Religious Enlightenment:

The Religious Enlightenment David Jan Sorkin, 2008 Sorkin is right to argue that enlightenment and faith went together for most participants in the Enlightenment and that this is a major topic that has been relatively neglected He has written an outstanding and eminently accessible book bringing the whole question centrally to scholars attention He skillfully demonstrates that all confessions and religious traditions found themselves very much in a common predicament and sought similar solutions Jonathan Israel Institute for Advanced Study Powerfully cogent Sorkin seeks to show that the religious Enlightenment was not a contradiction in terms but was an integral and central part of the Enlightenment Anyone interested in the history of the Enlightenment in particular or the eighteenth century in general will want to read this book Sorkin is one of the leading scholars working in the field His scholarship is as wide as it is deep Tim Blanning University of Cambridge

A Wise, Enlightened and Reliable Piety' David Jan Sorkin, 2002 **The Religious Enlightenment** David Sorkin, 2011-05-15 Sorkin is right to argue that enlightenment and faith went together for most participants in the Enlightenment and that this is a major topic that has been relatively neglected He has written an outstanding and eminently accessible book bringing the whole question centrally to scholars attention He skillfully demonstrates that all confessions and religious traditions found themselves very much in a common predicament and sought similar solutions Jonathan Israel Institute for Advanced Study Powerfully cogent Sorkin seeks to show that the religious Enlightenment was not a contradiction in terms but was an integral and central part of the Enlightenment Anyone interested in the history of the Enlightenment in particular or the eighteenth century in general will want to read this book Sorkin is one of the leading scholars working in the field His scholarship is as wide as it is deep Tim Blanning University of Cambridge **Religious Enlightenment in the eighteenth-century Nordic countries** Johannes Ljungberg, Erik Sidenvall, 2023-10-17 This book explores the concept of religious Enlightenment in the Nordic countries during the long eighteenth century It argues that Lutheran confessional culture became intertwined with Enlightenment ideas and practices in this European region In the book s three parts specialist historians explore themes central to students of the early modern era historical writing material culture ecclesiastical and legal reform censorship cameralism and innovative medical practices It offers a timely reconsideration of a complex period in European history from a northern perspective An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence **Enlightenment and Religion** Knud

Haakonssen, 2006-11-02 This book makes a comprehensive reassessment of the relationship between Enlightenment and religion in England The debate about an English Enlightenment has centred on the role of religion especially the relationship between the established Anglican Church and the dissenting confessions It has long been accepted that liberal rational dissenters developed an Enlightenment agenda but most literature on this topic is quite out of date These interdisciplinary essays provide a fresh analysis of rational dissent within English Enlightenment culture Equally they contribute to the debate

over eighteenth century religion and its social political and intellectual meaning focusing on the Irish and Scottish contributions to English dissent Its wide perspective and research make Enlightenment and Religion an important and original contribution to eighteenth century studies

New Approaches to Religion and the Enlightenment Brett C. McInelly, Paul E. Kerry, 2018-11-09 The Enlightenment an eighteenth century philosophical and cultural movement that swept through Western Europe has often been characterized as a mostly secular phenomenon that ultimately undermined religious authority and belief and eventually gave way to the secularization of Western society and to modernity To whatever extent the Enlightenment can be credited with giving birth to modern Western culture historians in more recent years have aptly demonstrated that the Enlightenment hardly singled the death knell of religion Not only did religion continue to occupy a central place in political social and private life throughout the eighteenth century but it shaped the Enlightenment project itself in significant and meaningful ways The thinkers and philosophers normally associated with the Enlightenment to be sure challenged state sponsored church authority and what they perceived as superstitious forms of belief and practice but they did not mount a campaign to undermine religion generally A more productive approach to understanding religion in the age of Enlightenment then is to examine the ways the Enlightenment informed religious belief and practice during the period as well as the ways religion influenced the Enlightenment and to do so from a range of disciplinary perspectives which is the goal of this collection The chapters document the intersections of religious and Enlightenment ideas in such areas as theology the natural sciences politics the law art philosophy and literature

The Enlightenment and Religion S. J. Barnett, 2003 This publication offers a critical survey of religious change and its causes in 18th century Europe Focusing on Enlightenment Italy France and England the text illustrates how the canonical view of 18th century religious change has in reality been constructed upon scant evidence and assumption

The Youth's Liberal Guide for Their Moral Culture and Religious Enlightenment Hermann Marcus Kottinger, 1877

Religion and the Enlightenment James M. Byrne, 1997-01-01 This volume offers an overview of the Enlightenment's revolution of Western theology It explains the era's ideas within the framework of religion politics and society and shows how they impacted that society

Enlightened Religion Joke Spaans, Jetze Touber, 2019-03-25 The history of the relation between religion and Enlightenment has been virtually rewritten In recent decades The idea of a fairly unidirectional rise of paganism or secularisation has been replaced by a much more variegated panorama of interlocking changes not least in the nature of both religion and rationalism This volume explores developments in various cultural fields from lexicology to geographical exploration and from philosophy and history to theology media and the arts involved in the transformation of worldviews in the decades around 1700 The main focus is on the Dutch Republic where discussion culture was more inclusive than in most other countries and where people from very different walks of life joined the conversation Contributors include Wiep van Bunge Frank Daudeij Martin Gierl Albert Gootjes Trudelien van t Hof Jonathan Israel Henri Krop Fred van Lieburg Jaap Nieuwstraten Joke Spaans Jetze Touber
