The Biolinguistic Enterprise Anna Maria Di Sciullo, Cedric Boeckx, 2011-03-17 This book by leading scholars represents some of the main work in progress in biolinguistics It offers fresh perspectives on language evolution and variation new developments in theoretical linguistics and insights on the relations between variation in language and variation in biology The authors address the Darwinian questions on the origin and evolution of language from a minimalist perspective and provide elegant solutions to the evolutionary gap between human language and communication in all other organisms They consider language variation in the context of current biological approaches to species diversity the evo devo revolution which bring to light deep homologies between organisms In dispensing with the classical notion of syntactic parameters the authors argue that language variation like biodiversity is the result of experience and thus not a part of the language faculty in the narrow sense They also examine the nature of this core language faculty the primary categories with

which it is concerned the operations it performs the syntactic constraints it poses on semantic interpretation and the role of phases in bridging the gap between brain and syntax Written in language accessible to a wide audience The Biolinguistic Enterprise will appeal to scholars and students of linguistics cognitive science biology and natural language processing

Language Processing and Simultaneous Interpreting Birgitta Englund Dimitrova, Kenneth Hyltenstam, 2000-01-01
This volume brings together papers from the areas of psychology general linguistics psycholinguistics as well as from simultaneous interpreting Their common focus is how theories and methodologies from various disciplines can be applied to the study of simultaneous interpreting and also to suggest ways in which the study of simultaneous interpreting in its turn might contribute to knowledge in other areas General topics dealt with include memory language processing bilingual processing and second language acquisition The articles more specifically focused on simultaneous interpreting discuss implications of the general topics and report on empirical studies on expertise in interpreting and on phonological interference in spoken language interpreting Requirements for further interdisciplinary research in the context of simultaneous interpreting are considered There is also a discussion of transcription conventions for simultaneous interpreting
