Handbook of Creativity John A. Glover, Royce R. Ronning, Cecil R. Reynolds, 2013-03-09 The motivation underlying our development of a handbook of creativity was different from what usually is described by editors of other such volumes Our sense that a handbook was needed sprang not from a deluge of highly erudite studies calling out for organization nor did it

stem from a belief that the field had become so fully articulated that such a book was necessary to provide summation and reference. Instead, this handbook was conceptualized as an attempt to provide structure and organization for a field of study that, from our perspective, had come to be a large-scale example of a degenerating research program (see Brown, Chapter 1). The handbook grew out of a series of discussions that spanned several years. At the heart of most of our interactions was a profound unhappiness with the state of research on creativity. Our consensus was that the number of good works published on creativity each year was small and growing smaller. Further, we could not point to a journal, text, or professional organization that was providing leadership for the field in shaping a scientifically sound framework for the development of research programs in creativity. At the same time, we were casting about for a means of honoring a dear friend, E. Paul Torrance. Our decision was that we might best be able to honor Paul and influence research on creativity by developing a handbook designed to challenge traditional perspectives while offering research agendas based on contemporary psychological views.

Innovative Educational Approaches to Creative Writing Skills Liliana Mata, Monalisa-Laura Gavrilut, 2025-06-20. This book provides innovative educational approaches to the development of primary school students' creative writing skills and highlights the need to develop creative writing skills in today's schools. It presents the educational model of creative writing skills training, which combines all curriculum components: educational objectives, curricular contents, teaching methods and techniques, and competency-based assessment. This book also explores new perspectives such as creative writing as art, freedom and exploration, the digitization of creative writing, and promoting reflective learning through creative writing exercises. This book serves as a useful guide for educators to foster creative writing in primary school classrooms as well as for researchers in the field of language teaching and other readers who are interested in the topic.
