Dickenson, 2017-01-23 On the Agora traces the evolution of the main public square of the Greek polis for the six centuries from the death of Alexander the Great in 323 BC to the height of the Roman Empire and the Herulian invasion of Greece in 267 AD Drawing on literary epigraphic and especially archaeological evidence the book takes a comparative approach to consider how the layout and function of agoras in cities throughout Greece changed during centuries that witnessed far reaching transformations in culture society and political life The book challenges the popular view of the post Classical agora as characterised by decline makes important arguments about how we use evidence to understand ancient public spaces and proposes many new interpretations of individual sites **Ancient Cities** Charles Gates, Andrew Goldman, 2024-02-29 The third edition of *Ancient Cities* surveys the cities of the Ancient Near East Egypt and the Greek Etruscan and Roman worlds from the perspectives of archaeology and architectural history bringing to life the physical world of ancient city dwellers by concentrating on archaeological evidence Urban form is the focus the physical appearance and overall plans of cities their architecture and natural topography and the cultural and historical contexts in which they flourished Attention is also paid to non urban features such as religious sanctuaries and burial grounds places and institutions that were a familiar part of the city dweller s

experience Objects or artifacts that furnished everyday life are discussed such as writing systems pottery sculpture wall paintings mosaics and coins Ancient Cities is unusual in presenting this wide range of Old World cultures in such comprehensive detail giving equal weight to the Preclassical and Classical periods and in showing the links between these ancient cultures In this new edition in which Andrew Goldman has joined Charles Gates in updating the volume readers and lecturers will be delighted to see a major revision of the chapters on Greek cities in South Italy and Sicily the Etruscans the development of the capital city Rome during the Republic as well as the Empire and the end of the ancient city This new edition includes several new and updated user friendly features such as Clear and accessible language assuming no previous background knowledge Lavishly illustrated with almost 350 line drawings maps and photographs including new contributions from Neslihan Y lmaz Tekman adding to her already acclaimed illustrations Suggestions for further reading for each chapter A companion website with images study guides and an interactive timeline With its comprehensive presentation of ancient Mediterranean and Near Eastern cities its rich collection of illustrations and its companion website Ancient Cities remains an essential textbook for university and high school students across a wide range of archaeology ancient history and ancient Near Eastern Biblical and Classical Studies courses [The Athenian Agora](#) American School of Classical Studies at Athens,1953

Ashes, Images, and Memories Nathan T. Arrington,2015 This study argues that the institution of public burial for the war dead and images of the deceased in civic and sacred spaces fundamentally changed how people conceived of military casualties In a period characterized by war and the threat of civil strife the nascent democracy claimed the fallen for the city and commemorated them with rituals and images that shaped a civic ideology of struggle and self sacrifice on behalf of a unified community [The Athenian Constitution Written in the School of Aristotle](#) Aristotle,2017 This is an up to date

edition of the Athenian Constitution which was written in the school of Aristotle in the fourth century B C by a scholar who has been engaged with this text throughout his working life [Inscriptions](#) Daniel J. Geagan,2011-09-09 This is the last of five volumes presenting inscriptions discovered in the Athenian Agora between 1931 and 1967 Published here are inscriptions on monuments commemorating events or victories on statues or other representations erected to honor individuals and deities and on votive offerings to divinities Most are dated to between the 4th century B C and the 2nd century A D but a few survive from the Archaic and Late Roman periods A final section contains monuments that are potentially but not certainly dedicatory in character and a small number of grave markers omitted from Agora XVII Each of the 773 catalogue entries includes a description of the object inscribed bibliography a transcription of the Greek text and commentary There are photographs of each piece of which no adequate illustration has yet been published including newly joined fragments The volume concludes with concordances and six indexes [Logistics in Greek Sanctuaries](#) ,2025-09-17

Scholarly study of ancient Greek sanctuaries has tended to focus on religion and ritual monuments deities sacrifice and topography Logistics in Greek Sanctuaries takes a completely novel perspective by shifting the focus away from the religious sphere and monumental aspects of sanctuaries to practical activity and the experience of the human visitor Close examination of the more mundane and everyday life and activity in Greek cult places e g sanitation water and food supply accommodation markets managing crowds and behavior workers and finances reveals relatively unexplored facets of ancient Greek sanctuaries and offers new paths of investigation for the future
