The Atlantis Legacy Taking Humanity Through 2012 And Beyond:

The Atlantis Legacy: Taking Humanity Through 2012 and Beyond Jennifer Hoffman, 2012-09-12 Join Jennifer Hoffman as she takes you on a journey to Atlantis and beyond where you will discover your Atlantean heritage and the real story of how Atlantis was destroyed You may be surprised to discover that you have real memories of this long forgotten past and how it affects your life today The Atlantis Legacy is a story of an ascension cycle which ended with the destruction of the beautiful community of Atlantis But it is more than a cautionary tale even though we are re living our Atlantis legacy today We will succeed in moving beyond our Atlantis experience because we now have the opportunity to heal the Atlantean Paradigm Our choice to learn from and heal these memories and energetic imprints will be the deciding factor for whether we move into higher dimension of being and eclipse our Atlantis experience or re create the destruction of Atlantis and begin another ascension cycle Through our collaborative intention to ascend to open the gateway to higher dimensions to experience life on Earth as heaven on earth this ascension cycle will reach the completion we desire Some of the things you will learn in this book include What previous ascensions cycles mean to us including those of Pangea and Lemuria The meaning of ascension and ascension cycles The history of Atlantis role in the galactic community and how they interact with us How your Atlantis Legacy impacts your life The roles of the feminine and masculine energies in Atlantis and how they are re created in our world today What happened during and after Atlantis destruction The new parameters that were set for our ascension cycle and how they define our lives The lessons you created from Atlantis including your soul group and life path choices The Atlantean Guilt and how it has impacted your life How to heal and release your Atlantis legacy soul group comments and reclaim your gifts Our next steps in ascension Everything that is happening in the earth today can either remind us of the futility of our efforts against those who seem to want to destroy the planet or we can be reminded of Atlantis lessons that we are each responsible for ascension It is through the strength of a shared common intention our conscious and focused goal for ascension to happen in the best way possible that we will enable this to happen Each of us is on own ascension path which contributes to the Earth s ascension cycle and a wider universal ascension As we learn heal grow and transform we raise ourselves to higher dimensions of being and evolve into spiritual humans becoming our highest potential read to move into the fifth dimension and beyond

Rose Ceremonies Christine Henderson, PhD, 2014-06-11 What would it take for us to restore in ourselves and in our community the sense of the sacred that is often lost in the fragmentation of modern life What would it take for us to express our inner creativity to the world Embodying the energy of the sacred rose assists us to reach our full potency In this the third book in the Rose Trilogy the ability to access higher levels of sacred rose consciousness is facilitated through ceremonies initiations and attunements These ceremonies enhance our journey of personal destiny It pre supposes an understanding of the existence of a dynamic and enveloping world of energetic vibration coexisting with our material world This energy is deep all pervasive and central to the depth of our understanding of ourselves as we take the

most adventurous journey of all the journey within Enjoy the journey of the rose **Beyond 2012: Catastrophe or Awakening?** Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar s Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence McKenna s timewave zero and Maurice Cotterell s sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date

Spaceflight in the Shuttle Era and Beyond Valerie Neal, 2017-06-27 An exploration of the changing conceptions of the Space Shuttle program and a call for a new vision of spaceflight The thirty years of Space Shuttle flights saw contrary changes in American visions of space Valerie Neal who has spent much of her career examining the Space Shuttle program uses this iconic vehicle to question over four decades worth of thinking about and struggling with the meaning of human spaceflight She examines the ideas images and icons that emerged as NASA Congress journalists and others sought to communicate rationales for or critiques of the Space Shuttle missions At times concurrently the Space Shuttle was billed as delivery truck and orbiting science lab near Earth station and space explorer costly disaster and pinnacle of engineering success The book s multidisciplinary approach reveals these competing depictions to examine the meaning of the spaceflight enterprise Given the end of the Space Shuttle flights in 2011 Neal makes an appeal to reframe spaceflight once again to propel humanity forward Neal may be the one person who knows the space shuttle program better than the astronauts who flew this iconic vehicle Her book casts new light on the program exploring its cultural significance through a thoughtful analysis As one who lived this history I gained much from her broader perspective and deep insights Kathryn D Sullivan retired NASA astronaut and former Administrator of the National Oceanic and Atmospheric Administration A much needed look at how to create a cultural narrative for human spaceflight that resonates with millennials rather than the Apollo generation Quite valuable Marcia Smith Editor SpacePolicyOnline com *The Great Shift* Lee Carroll, Martine

Human Extinction Émile P. Torres,2023-06-15 This volume traces the origins and evolution of the idea of human extinction from the ancient Presocratics through contemporary work on existential risks Many leading intellectuals agree that the risk of human extinction this century may be higher than at any point in our 300 000 year history as a species This book provides insight on the key questions that inform this discussion including when humans began to worry about their own extinction and how the debate has changed over time It establishes a new theoretical foundation for thinking about the ethics of our extinction arguing that extinction would be very bad under most circumstances although the outcome might be on balance good Throughout the book graphs tables and images further illustrate how human choices and attitudes about extinction have evolved in Western history In its thorough examination of humanity s past this book also provides a starting point for understanding our future Although accessible enough to be read by undergraduates *Human Extinction* contains new and thought provoking research that will benefit even established academic philosophers and historians

Through the Gate of Time Adasthra,2012-01-01 This book gives a deeper understanding of creation and all that lives in the Universe especially on Earth It provides a clear picture about how everything was created with a special purpose

and how it all functions Consciousness and the Evolving human **Confessions of an Illuminati, VOLUME II** Leo Lyon Zagami, 2017-11-11 After his master thesis of the secret societies network as outlined in Volume I the Confessions of an Illuminati narrative of Leo Lyon Zagami is projected to the reality of today including the occult maneuvers behind the New World Order We need to wake up beyond our current belief systems because the controllers of the New World Order are moving fast using the Prophecies to their advantage to implement their evil plan by 2020 when World War III will finally break loose The author demonstrates that the hierarchy of power emanating from Rome and Jerusalem with the Jesuits and the Zionist s united by a secret pact since the Second Vatican Council are in cahoots working towards the creation of a world government There is also China playing a new role in the NWO with the far reaching tentacles of Chinese Freemasonry manipulating economic Hit Men and disinformation artists while Russia is building their Christian orthodox alliance to apparently oppose the Western antichrist In this unprecedented scenario we also have the involvement of the big media moguls like Ted Turner and Silvio Berlusconi and their role in manipulating perceptions The author discusses further aspects of the Satanic infiltration of Freemasonry pointing out on the generational aspect the many ways of defending yourself psychically against black magicians but also against the many sects operating in the Illuminati Network *A Critical Approach to Conceptual and Historical Issues in Psychology* Stanley O. Gaines, Jr., 2025-03-14 A Critical Approach to Conceptual and Historical Issues in Psychology Soul Self and Science examines the evolving concept of human consciousness throughout the ages to show how humanity progressed from studies of the soul a major concern of ancient philosophy to a science of the mind including the self a primary concern of contemporary psychology Divided into five parts the book moves through the history of psychology from its philosophical roots into the present day and beyond It takes a balanced and critical approach to figures and theories which have been instrumental in the development of psychology as a discipline such as Plato Descartes Wundt Du Bois Freud Jung Watson Skinner and Maslow Throughout it offers diverse perspectives on the field s history providing insights into such topics as race and intelligence gender and personality and their treatment within psychology Each chapter is supported by breakout boxes highlighting key theories related to that chapter s topic Thought questions to encourage the reader to critically evaluate what they have read notes with further information and suggestions for further reading are provided online Of particular interest to postgraduate students on MSc conversion courses the book will also interest undergraduate students completing history of psychology conceptual and historical issues in psychology history and systems of psychology and related modules This textbook was designed to comply with the QAA Subject Benchmark Statement in Psychology and the BPS accreditation guidelines for content in Conceptual and Historical Issues in Psychology
