Sociology In Modules 2nd Edition Ebook:

Psychology and Sociology Applied to Medicine Beth Alder, Edwin van Teijlingen, MA, MEd, PhD, Michael Porter, BA, MPhil, 2009-06-17 This textbook in the Illustrated Colour Text series offers an integrated treatment of sociology and psychology for medical students. It is presented in a much more colourful and graphic format than is usual for books on these two subjects. This integration reflects the tendency to teach these two subjects together as behavioural science with an increased stress on the place of medicine in society and on illness as a product of psychological and social circumstances rather than merely a biological phenomenon. The book reflects these trends and has been successful and popular with students. An integrated treatment of psychology and sociology for medical students in line with the trend towards teaching these subjects as behavioural sciences. Use of case studies and Stop Think boxes encourages critical thinking and discussion. Graphic Illustrated Colour Text presentation style enlivens a subject which most medical students are not keen on. This third edition contains a new introduction on the importance and key features of the biopsychosocial model and additional double page spreads on International Health and Rural Health. *EBOOK: Reconceptualizing Social Policy: Sociological Perspectives on Contemporary Social Policy* Amanda Coffey, 2004-09-16 How can sociological perspectives help us make sense of contemporary social policy? How has the discipline of social policy engaged in recent sociological debates and developments? This book provides a variety of sociological frameworks for understanding contemporary social policy. It explores how sociological perspectives may be used to theorize, conceptualize and research social policy. Amanda Coffey captures the different ways in which social policy can be understood as academic discipline, policy process, service provision and lived experience. The book engages with a range of policy areas and client groups and pays attention to sociodemographic categories such as gender, race, class and age. Themes include: The body and processes of embodiment; Citizenship and identity; Equality and differences; Space and time; Research and representation. *Reconceptualizing Social Policy* is a key text for students and lecturers in sociology and social policy. *EBOOK: Research Methods in Health: Investigating Health and Health Services* Ann Bowling, 2014-07-16 This bestselling book provides an accessible introduction to the concepts and practicalities of research methods in health and health services. This new edition has been extensively reworked and expanded and now includes expanded coverage of Qualitative methods, Social research, Evaluation methodology, Mixed methods, Secondary data analysis, Literature reviewing and critical appraisal, Evidence based practice. Covering all core methodologies in detail, the book looks at the following kinds of health research: health needs, morbidity and mortality trends and rates, costing health services, sampling for survey research, cross sectional and longitudinal survey design, experimental methods and techniques of group assignment, questionnaire design, interviewing techniques, coding and analysis of quantitative data, methods and analysis of qualitative observational studies, unstructured interviewing.
