Spinoff 2005 Spinoff 2005:

Spinoff, 2008 **Spinoff 2007** Bernan, 2008-08 Spinoff is NASA's annual premiere publication featuring successfully commercialized NASA technology. For more than 40 years the NASA Commercial Technology Program has facilitated the transfer of NASA technology to the private sector benefitting global competition and the economy. The resulting commercialization has contributed to the development of commercial products and services in the fields of health and medicine, industry, consumer goods, transportation, public health, computer technology, and environmental resources. Since 1976 Spinoff has featured between 40 and 50 of these commercial products annually. **Spin-Off Churches** Rodney Harrison, Tom Cheyney, Don Overstreet, 2008 Veteran missional church planters present a much needed how to resource for churches desiring to sponsor the planting of other new churches locally and globally. **The British Sitcom Spinoff Film** Stephen Glynn, 2023-12-07 This book constitutes the first full volume dedicated to an academic analysis of theatrically released spinoff films derived from British radio and television sitcoms. Regularly maligned as the nadir of British film production and marginalised as a last resort for the financially bereft industry during the 1970s, this study demonstrates that the sitcom spinoff film has instead been a persistent and important presence in British cinema from the 1940s to the present day and includes occasional works with distinct artistic merit. Alongside an investigation of the economic imperative underpinning these productions, i.e. the exploitation of proven product with a ready-made audience, it is argued that with a longevity stretching from Arthur Askey and his wartime Band Waggon 1940 to the crew of Krupt FM and their recent *People Just Do Nothing* Big in Japan 2021, the British sitcom spinoff can be interpreted as following a full generic life cycle. Starting with the formative stage where works from *Hi Gang* 1941 to *I Only Arsked* 1958 establish the genre's characteristics, the spinoff genre moves to its classic stage where secure in form and content it enjoys considerable popular success with films like *Till Death Us Do Part* 1969, *On the Buses* 1971, *The Likely Lads* 1976 and *Rising Damp* 1980. The genre's revival since the late 1990s reveals a more parodic final stage with films like *The League of Gentlemen's Apocalypse* 2005 adopting a consciously self-reflective mode. It is also posited that the sitcom spinoff film is a viable source for social history with the often stereotypical representations of characters and events an often blatant ideological metonym for the concerns of wider British society, notably in issues of class, race, gender, and sexuality. [Code of Federal Regulations](#), 2006 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries. *Code of Federal Regulations* United States. Internal Revenue Service, 2013 Special edition of the Federal register containing a codification of documents of general applicability and future effect as of April 1 with ancillaries. **Rethinking Innovation** Ram Subramanian, Martin Rahe, Vishnuprasad Nagadevara, C. Jayachandran, 2016-03-17 Innovation manifests itself as a key driver of improved productivity and sustainable growth in today's global economic landscape. This book brings together perspectives and case studies from across the world, discusses frameworks and actual conditions required for

innovation and examines a variety of themes such as technology innovation research development team and human resource management product and process creativity and entrepreneurship development to augment strategic and competitive advantage It will prove essential to those in business and management entrepreneurship economics and development studies particularly those interested in innovation strategic planning and business leadership When is Regional Beautiful? Bjorn Asheim, Olof Ejermo, Annika Rickne, 2013-10-18 This book focuses on the importance of geography and space in explaining knowledge flows entrepreneurship and innovation During the last few decades spatial perspectives have enjoyed a growing attention outside the specific discipline of geography both in academic economics and among practitioners of policy and planning This book constitutes a selection of empirical contributions based on data from Canada the Netherlands Sweden Switzerland and the United Kingdom The studies address issues of the characteristics of intra vs interregional knowledge flows Weterings and Ponds the restructuring process when a large pharmaceutical Pharmacia closes activities Dahlgren and Valentin the different structure of university industry relationships in three countries with differential types of universities Broström McKelvey and Sandström the locational organization of knowledge intensive business services KIBS in a metropolitan region Shearmur and Doloreux the background of individuals in KIBS start ups Andersson and Hellerstedt and give a critical scrutiny of attempts to create Regional Innovation Systems Nuur Gustavsson and Laestadius The contributions thus address relevant contemporary issues regarding the structure of the service economy the role of academia and renewal of industries They provide valuable information useful to policy makers planners and academics **Literary Spinoffs** Birgit Spengler, 2015-03-05 *Literary Spinoffs Rewriting the Canon Re Imagining the Community* explores the literary strategies theoretical dimensions and cultural implications of contemporary rewritings of nineteenth century classics By hooking on to powerful literary and cultural narratives literary spinoffs seek to interfere with the cultural imaginary and revise the ways in which the cultural community constructs itself via formative narratives Spengler offers in depth case studies of prominent contemporary rewritings and the cultural work they undertake while also examining the genre's particular aesthetics and effects Through their intensely intertextual form spinoffs raise urgent questions about the possibilities for participation in processes of cultural meaning making and invigorate contemporary debates about intellectual property cultural capital as well as high and popular culture *Executive Teams in Research-Based Spin-Off Companies* Rigo Tietz, 2013-04-10 Research based spin off companies are a special subgroup of new technology based ventures and play an important role for innovation and economic development Executive teams of academic spin offs face several challenges in building up sustainable and profitable ventures because they often lack managerial and entrepreneurial skills Based on a quantitative analysis of 193 German spin offs Rigo Tietz examines the relationships between executive team characteristics strategic decision making and firm performance The study contributes to the entrepreneurship and strategic management literature and has practical implications for entrepreneurs and managers policymakers and practitioners of start up initiatives and technology transfer
