Foundations of Reading Acquisition and Dyslexia Benita A. Blachman, 2013-03-07 The chapters in this volume are based on presentations made at a recent conference on cognitive and linguistic foundations of reading acquisition The researchers who participated have all made contributions to the theoretical and empirical understanding of how children learn to read They were asked to address not only what they have learned from their research but also to discuss unsolved problems This dialogue prompted numerous questions of both a theoretical and applied nature generated heated debate and fueled optimism about the important gains that have been made in the scientific understanding of the reading process especially of the critical role played by phonological abilities Word Recognition in Beginning Literacy Jamie L. Metsala, Linnea C. Ehri, 2013-06-17 This edited volume grew out of a conference that brought together beginning reading experts from the fields of education and the psychology of reading and reading disabilities so that they could present and discuss their research findings and theories about how children learn to read words instructional contexts that facilitate this learning background experiences prior to formal schooling that contribute and sources of difficulty in disabled readers The chapters bring a variety of perspectives to bear on a single cluster of problems involving the acquisition of word reading ability It is the editors keen hope that the insights and findings of the research reported here will influence and become incorporated into the development of practicable classroom based instructional programs that succeed in improving children s ability to become skilled readers Furthermore they hope that these insights and findings will become incorporated into the working knowledge that teachers apply when they teach their students to read and into further research on reading acquisition
