Undergraduate Science, Math, and Engineering Education United States. Congress. House. Committee on Science. Subcommittee on Research, 2006 Kids, Cops and Communities Marcia R. Chaiken, 1999-02 This report is designed to help law enforcement administrators and officers understand and institute a strategy to help prevent violence community oriented policing services carried out in collaboration with youth serving organizations Popular police prevention approaches such as DARE have helped prepare police officers to work hand in hand in a variety of ways with local affiliates of national youth serving organizations In a growing number of cities police are working with youth groups and finding that violence involving youth is rapidly decreasing The research involved a survey of 579 affiliates of 7 national youth serving organizations

Building Mathematics Learning Communities Erica N. Walker, 2015-04-17 Opportunity to learn OTL factors interact and ultimately influence mathematics achievement Many important OTL interactions take place in school settings This volume provides insights into the role of peer interactions in the mathematics learning process The analysis describes with a sense of purpose a topic that is typically overlooked in discussions of mathematics reform The case study is an important contribution to the urban mathematics education literature William F Tate Edward Mallinckrodt Distinguished University Professor in Arts Sciences Washington University in St Louis Drawing on perceptions behaviors and experiences of students at an urban high school both high and low achievers this timely book demonstrates how urban youth can be meaningfully engaged in learning mathematics The author presents a potential model rather than a deficit model complete with teaching strategies and best practices for teaching mathematics in innovative and relevant ways This resource offers practical insights for pre and inservice teachers and administrators on facilitating positive interactions engagement and achievement in mathematics particularly with Black and Latino students It also examines societal perceptions of urban students and how these affect teaching and learning policies and mathematics outcomes Based on extensive research in urban high schools the author identifies three key principles that must be understood for teachers and students to build strong mathematics communities They are Urban students want to be a part of academically challenging environments Teachers and administrators can inadvertently create obstacles that thwart the mathematics potential of students Educators can build on existing student networks to create collaborative and non hierarchical communities that support mathematics achievement

Erica N Walker is Associate Professor of Mathematics Education at Teachers College Columbia University *Women Community Leaders and Their Impact as Global Changemakers* Goodman Hayward, Patricia, Rehman, Sahar, Yan, Zirui, 2022-04-22 Women though historically oppressed have always played a crucial role in global communities As more women are taking leadership positions in social political and business roles it is essential to examine the way in which these women impact cultural development and societal progression In some cases these women community leaders impact goes beyond their communities and affect transformative cultural change globally *Women Community Leaders and Their Impact as Global Changemakers* examines how communities change based on cultural resilience advocates It examines female leaders of local communities making an impact that either could be replicated at a global level or impact on a global scale Covering topics such as governmental transformation human rights and social change through technology this premier reference source is a dynamic resource for feminists governmental organizations libraries students and educators of higher education entrepreneurs leaders in business non profit organizations empowering women and girls researchers and academicians **Investigating Light and Shadow with Young Children (Ages 3-8)** Beth Dykstra Van

Meeteren, 2022-06-17 Children are intrigued by switches that power a light source and by items that reflect light and sparkle and they take notice of personal shadows cast on the playground An understanding of light and shadow is crucial to many STEM fields including astronomy biology engineering architecture and more This book shows teachers how to engage children ages 3 8 with light and shadow in a playful way building an early foundation for the later more complex study of this phenomena and ultimately for children s interest in professions within the STEM fields The text offers guidance for arranging the physical environment of classrooms integrating literacy learning and investigations and building partnerships with administrators Each volume in the STEM for Our Youngest Learners Series includes examples of educators and children engaging in inquiry learning guidance for selecting materials and arranging the learning environment modifications and accommodations for diverse learners support for establishing adult learning communities and more The Circle of

Support: Building Strong Connections Between Family, School, and Community Silas Mary, 2025-02-03 The Circle of Support emphasizes the importance of building a strong support network between family school and community This book provides actionable steps for fostering collaboration among teachers parents and community members to ensure that children receive the support they need to thrive Learn how to communicate effectively with educators build relationships with other families and involve community resources to create a nurturing well rounded environment for your child The Circle of Support shows how strengthening these relationships can contribute to your child s academic success emotional well being and social development

Anti-Blackness at School Joi A. Spencer, Kerri Ullucci, Tyrone C. Howard, 2022 While schools often are framed as places of neutrality and fairness many American schools have harmed Black children or been silent in the face of their struggles under education and mistreatment While there are undoubtedly adults in these spaces who support Black

children many others ignore Black families minimize students concerns and believe that colorblindness will solve the problem of inequity in education Embedded in everyday realities the authors outline the many ways anti Blackness shows up in schools Drawing on more than 44 years of equity work they provide concrete doable and meaningful ways in which teachers and administrators can create Black affirming spaces Written for pre and in service teachers and others working with Black children and youth Anti Blackness at School explores both the scope of anti Blackness and how teachers can reject racism Book Features Provides interracial perspectives from authors Joi Spencer a Black woman from California and Kerri Ullucci a White woman from Rhode Island Uses case studies activities lessons and techniques to talk about anti Blackness inventory its presence and take steps to address the harm caused by it Calls out how school policies programs belief systems and customs are particularly hostile to Black youth Explains why diversity work is not synonymous with antiracist work offering a model focused on justice and equity Directs practitioners to easily accessible resources that will allow them to challenge racism and uplift Black youth in their care
