Teaching Postcolonial Environmental Literature and Media Cajetan Iheka, 2021-12-28 Provides strategies for teaching postcolonial environmental literature by writers from the Global South and indigenous peoples Topics and approaches include environmental justice queer ecofeminism animal studies migration anticolonialism petrofiction sea level rise environmental humanities and environmental justice organizations Works from Africa Latin America East Asia and the Caribbean are discussed **Margaret Atwood's**

Aesthetics Dunja M. Mohr, Kirsten Sandrock, 2025-03-31 Perhaps more timely than ever Margaret Atwood's *Aesthetics* offers novel perspectives on both contemporary and canonical topics in Margaret Atwood's work with a special focus on the intersections of literature and politics. Arguably one of the most political writers of our times, Atwood's oeuvre subtly and overtly entangles readers in the dialectics of personal and political power asymmetries intrinsic to her aesthetic practices. The collection takes its cue from the concept of the *artpolitical* as coined by Crispin Sartwell whose afterword addresses Atwood's aesthetic and imaginative material world construction and explores the interrelationship between literatures and aesthetic as well as political systems in Atwood's works. Individual chapters of Margaret Atwood's *Aesthetics* contribute to increasingly burning questions concerning the relevance of literature today by drawing on a variety of critical perspectives including Anthropocene studies, gender intersectionality, the nonhuman and the posthuman, Mikhail Bakhtin's carnivalesque, risk studies, nationhood, intermediality and teaching. Chapters offer fresh views on some of Atwood's most prominent works such as *The Handmaid's Tale* and *The Testaments* and their transmedial adaptations while other chapters focus on Atwood's latest publications as well as on under researched works including her graphic novels and her web serialized publications. Margaret Atwood's *Aesthetics* provides unique insights into the aesthetic and political power of Atwood's oeuvre, arguing that literary and media representations and cultural adaptation practices contain a significant transformative potential that reaches beyond the page.
