literary and popular fiction across print visual audio and digital media American Cities in Post Apocalyptic Science Fiction explores the prevalence of these representations in American culture drawing from a wide range of primary and critical works from the early twentieth century to today Beginning with science fiction in literary magazines before taking in radio dramas film video games and expansive transmedia franchises Robert Yeates argues that post apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues Examining how the post apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible Chapters present media specific analyses of these texts situating them within their historical contexts and the broader history of representations of urban ruins in American fiction Original in its scope and cross media approach American Cities in Post Apocalyptic Science Fiction both illuminates little studied texts and provides provocative new readings of familiar works such as Blade Runner and The Walking Dead placing them within the larger historical context of imaginings of the American city in ruins

Challenging Anthropocentrism in Eco-Science Fiction Novels Fatma Gamze Erkan,2024-01-03 This book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected British eco science fiction novels These novels are John Christopher s The Death of Grass 1956 J G Ballard s The Drought 1965 Brian Aldiss s Earthworks 1965 and John Brunner s The Sheep Look Up 1972 all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious This book examines how even the smallest damage caused by human beings to the environment negatively affects them other living beings and the ecosystem they need to live and flourish In conjunction with these the factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised While examining how and why the environmental problems in the novels have arisen it is evaluated whether the authors propose solutions to these problems and if so what they are Voison'S Boomerang R.

RexDeNemo,2017-04-18 In a futuristic world a nurse practitioner and a doctor are encouraged to begin dating by Voison Noteau the elderly author of a book that accurately foretold of Boomerangthe moment in 2036 when an asteroid hit Earth and caused a disaster of epic proportions Unfortunately now some fifty years after Voison penned the prophetic story that was eventually optioned into a Hollywood movie the original manuscript is missing When Carol Applegate and Dr Razguptra finally go on their first date she is drugged As Dr Razguptra attempts to discover who slipped her the drugs he has no idea that there are those who want Carol silenced because of her knowledge about Voisons book As a detective and his partner are pulled in to investigate the strange events Voison reveals a surprising connection between the Malthusian Cartel and Boomerang and the location where he hopes the flash drive containing the manuscript is stored But little do they know that in their quest to find it they have all opened themselves up to an evil force determined to keep the truth hidden In this
