Doughty, 2018-10-30 This collection

of essays explores a wealth of topics in children's and young adult YA literature and culture. The contributions include an examination of the Watchbird cartoons by Munro Leaf and their attempts to teach morals and manners; an ethnographic study about the role of public youth librarians; and an exploration of the role popular video games can play in the secondary classroom. Other topics investigated here encompass the presentation of environmentalism in Hayao Miyazaki's films; psychological analyses; and the role of race, gender, and culture in children's and YA literature.

Shakespeare and Science Fiction Sarah Annes Brown, 2021-11-16

In *Shakespeare and Science Fiction*, Sarah Annes Brown investigates why so many science fiction writers have turned to Shakespeare when imagining humanity's future. He and his works become a kind of touchstone for the species in much science fiction, both transcending and exemplifying what it means to be human. Writers have used Shakespeare in a range of often contradictory ways. He is associated with freedom and with tyranny; with optimistic visions of space exploration and with the complete destruction of the human race. His works have been invoked to justify the existence of humanity but have also frequently been coopted for their own purposes by alien life forms or artificial intelligences.

Shakespeare and Science Fiction is the first extended study of Shakespeare's influence on the genre. It draws on over a hundred works across different science fiction media, identifying recurring patterns and telling contradictions in the way science fiction engages with Shakespeare. It includes discussions of time travel, alternate history, dystopias, space opera, posthuman identity, and post-apocalyptic fiction.
