The Poets and Writers Guide to Publicity and Promotion, The Power of Bad John Tierney, Roy F. Baumeister, 2019-12-31. From the international bestselling authors of Willpower. Why does a bad impression last longer than a good one? Why does losing money affect us more than gaining it? What makes phobias so hard to shake? The answer is the negativity bias, or in other words, the power of bad. As John Tierney and Roy F. Baumeister show, we are wired to react to bad over good. It makes sense in evolutionary terms, but in our modern world, the lure of bad is well bad. It governs people's moods, drives marketing, and dominates our news. It can explain everything from why wars start or couples divorce to why we mess up job interviews or feud with neighbours. But there is good news. By using smart strategies from new science, we can train our brains to get better at spotting our own negativity bias, fighting back with our rational minds to manage the bad in our lives, and even using its power for positive results. Breaking bad's hold over us can help our own lives at work and in our relationships. Properly understood, bad can be a good thing.

Web Metrics for Library and Information Professionals David Stuart, 2014-01-02. A practical guide to using web metrics to measure impact and demonstrate value. The web provides an opportunity to collect a host of different metrics from those associated with social media accounts and websites to more traditional research outputs. This book is a clear guide for library and information professionals as to what web metrics are available and how to assess and use them to make informed decisions and demonstrate value. As individuals and organizations increasingly use the web in addition to traditional publishing avenues and formats, this book provides the tools to unlock web metrics and evaluate the impact of this content. Key topics covered include: Introduction to web metrics; Bibliometrics, webometrics, and web metrics; Data collection tools; Evaluating impact on the web; Evaluating social media impact; Investigating relationships between actors; Exploring traditional publications in a new environment; Web metrics and the web of data; The future of web metrics and the library and information professional; Readership: This book will provide a practical introduction to web metrics for a wide range of library and information professionals from the bibliometrician

wanting to demonstrate the wider impact of a researcher's work than can be demonstrated through traditional citations databases to the reference librarian wanting to measure how successfully they are engaging with their users on Twitter It will be a valuable tool for anyone who wants to not only understand the impact of content but demonstrate this impact to others within the organization and beyond
