Digital Humanitarians Patrick Meier, 2015-01-06 The overflow of information generated during disasters can be as paralyzing to humanitarian response as the lack of information This flash flood of information social media satellite imagery and more is often referred to as Big Data Making sense of this data deluge during disasters is

proving an impossible challenge for traditional humanitarian Screening Scarlett Johansson Janice Loreck, Whitney Monaghan, Kirsten Stevens, 2019-12-03 Screening Scarlett Johansson Gender Genre Stardom provides an account of Johansson's persona work and stardom extending from her breakout roles in independent cinema to contemporary blockbusters to her self-parodying work in science fiction Screening Scarlett Johansson is more than an account of Johansson's career it positions Johansson as a point of reference for interrogating how femininity sexuality identity and genre play out through a contemporary woman star and the textual manipulations of her image The chapters in this collection cast a critical eye over the characters Johansson has portrayed the personas she has inhabited and how the two intersect and influence one another They draw out the multitude of meanings generated through and inherent to her performances specifically looking at processes of transformation metamorphosis and self deconstruction depicted in her work **Trust in a Complex World** Charles C. Heckscher, 2015 This book explores how trust and community are affected by the rapid increase in the scope of communication Uncertainty of relations generates many destructive reactions yet it also creates the possibility of a community wider and more diverse than ever before The book puts these contrasting scenarios in a historical and theoretical context **Ludicrous** Edward Niedermeyer, 2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype Tesla Motors and CEO Elon Musk have become household names shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom The company's market valuation now rivals that of long established automakers and to many industry observers Tesla is defining the future of the industry But behind the hype Tesla has some serious deficiencies that raise questions about its sky high valuation and even its ultimate survival Tesla's commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers even as it struggles to mass produce cars reliably and with minimal defects While most car manufacturers struggle with the razor thin margins of mid priced sedans Tesla's strategy requires that the Model 3 finally bring it to profitability even as the high priced Roadster and Model S both lost money And Tesla's approach of continually focusing on the future even as commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans In Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day to day realities of the company and the cars it produces Blending original reporting and never before published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it's never been told before with clear eyes objectivity and insight Development Hell: The NXT Story Michael Sidgwick, 2017-03-08 Development Hell The NXT Story penned by former Power Slam scribe and WhatCulture.com's own Michael Sidgwick chronicles the history of WWE's NXT brand NXT has drew universal critical acclaim for its fan service fusion of old school booking philosophies and progressive body of in ring work but the road to critical acclaim was arduous When WWE destroyed its territorial and mainstream competition the monolith had also annihilated the talent pool Replenishing it was an

unenviable task made all the more difficult by a blas and counterproductive attitude and a curiously myopic direction All of which is documented in a book covering the inauspicious beginnings of the dusty Stamford Farm warehouse and the murmurings of Memphis Power Pro the halcyon days of Ohio Valley Wrestling the infamous disaster of Deep South Wrestling and the literal lunacy that was Florida Championship Wrestling The roots of the triumph that was NXT were toxic *What If I'm an Atheist?* David Seidman,2015-03-10 A guide to atheism and nonbelief shares counsel on the challenges of questioning the views of one s upbringing establishing beliefs about religion and spirituality and addressing the practical aspects of managing religious occasions To Those Who Have Confused You to Be a Person Alia Dastagir,2025-02-25 An urgently needed reckoning with the harm harassment and abuse women face on the Internet complicating how we think about violence online and featuring deep reporting on how women are surviving the trauma by an award winning reporter When Alia Dastagir published a story for USA Today as part of an investigation into child sexual abuse she became the tar get of an online mob launched by QAnon and encouraged by Donald Trump Jr While female journalists politicians academics and influencers receive a disproportionate amount of online attacks because of the nature of their professions all women online experience hate creating profound harms for individual women and society In To Those Who Have Confused You to Be a Person Dastagir uses critical analysis from psychologists sociologists neuroscientists technologists and philosophers to offer a uniquely deep and intimate look at what women experience during online abuse as well as how they cope and make meaning out of violence Dastagir weaves together her story with those of thirteen other women including a comedian who uses feminist humor to subvert her harassment and an ob gyn who channels anger over her abuse to fight attacks on reproductive rights Dastagir explores why language online cannot be ignored how it damages bodies when it triggers and traumatizes and why women s responses are so varied Dastagir analyzes why online abuse is perpetrated by people across the ideological spectrum and how it intersects with the dangers of disinformation She argues that while online abuse is often framed exclusively as a problem of misogyny it is also connected to a culture of white supremacy and the systems with which it intertwines To Those Who Have Confused You to Be a Person is the book on online abuse for this cultural moment when being online is a daily necessity for so many even as we grow ever more polarized Systemic solutions are key to combating violence online but the narrative of reform does not help women today This nuanced examination of what it means to effectively cope will empower women to raise their voices against the forces bent on silencing them **The Age of Netflix** Cory Barker,Myc Wiatrowski,2017-09-19 In 2016 Netflix with an already enormous footprint in the United States expanded its online streaming video service to 130 new countries adding more than 12 million subscribers in nine months and bringing its total to 87 million The effectiveness of Netflix s content management lies in its ability to appeal to a vastly disparate global viewership without a unified cache of content Instead the company invests in buying or developing myriad programming and uses sophisticated algorithms to narrowcast to micro targeted audience groups In this collection of new essays contributors
