Starboard Wine Samuel R. Delany, 1984 Essays about science fiction **Fictional Languages in Science Fiction**

Literature Israel A. C. Noletto, 2024-05-31 Fictional Languages in Science Fiction Literature surveys a large number of fictional languages those created as part of a literary world to present a multifaceted account of the literary phenomenon of glossopoesis language invention Consisting of a few untranslated sentences exotic names or even fully fledged languages with detailed grammar and vocabulary fictional languages have been a common element of English language fiction since Thomas More's Utopia 1516 Different notions of the functions of such fictional languages in narrative have been proposed as rooted in phonaesthetics and contextual features or as being used for characterisation and construction of alterity Framed within stylistics and informed by narrative theory literary theory literary pragmatics and semiotics this study combines previous typologies into a new 5 part reading model comprising unique analytical approaches tailored to science fiction's specific discourse and style exploring the relationship between glossopoesis world building storytelling interpretation and rhetoric both in prose and paratexts **The Subject of Race in American Science Fiction** Sharon DeGraw, 2006-12-19

While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his Mars series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs' normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler's racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today Disability in Science Fiction K.

means of debating cultural issues Essays by an international range of scholars discuss the contexts themes and methods used by science fiction writers Addresses general topics such as the history and origins of the genre its engagement with science and gender and national variations of science fiction around the English speaking world Maps out connections between science fiction television the cinema virtual reality technology and other aspects of the culture Includes a section focusing on major figures such as H G Wells Arthur C Clarke and Ursula Le Guin Offers close readings of particular novels from Mary Shelley s *Frankenstein* to Margaret Atwood s *The Handmaid s Tale*

Race in American Science Fiction

Isiah Lavender,2011-02-08 A critical examination of Blackness and race in the predominantly White genre Noting that science fiction is characterized by an investment in the proliferation of racial difference Isiah Lavender III argues that racial alterity is fundamental to the genre s narrative strategy *Race in American Science Fiction* offers a systematic classification of ways that race appears and how it is silenced in science fiction while developing a critical vocabulary designed to focus attention on often overlooked racial implications These focused readings of science fiction contextualize race within the genre s better known master narratives and agendas Authors discussed include Isaac Asimov Ray Bradbury Philip K Dick and Ursula K Le Guin among many others Critically ambitious Isiah Lavender spurs a direct conversation about race and racism in science fiction De Witt Douglas Kilgore author of *Astrofuturism Science Race and Visions of Utopia in Space*

Religion and Science Fiction

James H. Thrall,2024-05-17 Religion and Science Fiction An Introduction guides students into deeper understanding of how religion and science fiction engage often overlapping questions This textbook introduces key ideas of religious studies through critical consideration of print and visual media that fall within the general category of science fiction The goal throughout is to help students move beyond simply identifying points of interrelation between religious studies and forms of what is often called more broadly speculative fiction to considering how the studied texts open new ways of thinking about human and

nonhuman experience taken to be religious With discussion questions lists of key terms extensive additional resources and suggestions for projects and essay questions this book is a foundational text for students and instructors of religion and science fiction
