Mindfulness Meditation Primer:

Mindfulness Meditations Tami Brady, 2013-09-23 Mindfulness Meditation is a compilation of beginner to intermediate meditations and guided visualizations. These exercises are useful as an introduction to formal and informal mindfulness techniques. They can be used alone in a personal meditation practice or as the framework for more in-depth methodologies.

Meditation Primer Tami Brady, 2011-09-28 Meditation Primer is a compilation of some of my favorite beginner to intermediate meditations and guided visualizations. These exercises are meant as an introduction to some of the basic techniques used in meditation and guided imagery. I personally use these techniques for relaxation and re-centering purposes. They are excellent as a method for stress relief and provide a good solid foundation for self or spiritual exploration. The Mindful Health Care Professional - E-Book Carmelina D'Arro, 2023-09-12 2025 PROSE Award Category Winner in Nursing Allied Health Services. Selected for Doody's Core Titles 2024 in Patient Education. Research shows that what makes or breaks the success of a health care professional is more than the ability to provide accurate diagnosis and treatment. An HCP's success hinges on their ability to satisfy patients' main concerns about HCPs: namely, do they care about me and will the procedure hurt? The Mindful Health Care Professional teaches HCPs how to train the mind to be calm, focused, and compassionate in ways that enhance their own well-being and their ability to provide patient-centered care. This book offers the core communication skills needed to convey care and build trust with a novel model that helps navigate challenging procedures and consultations. Finally, it contains many simple evidence-based techniques for managing pain and anxiety during medical and dental procedures, allowing procedures to unfold more easily for all. Written by Dr. Carmelina D'Arro, a seasoned health care professional and qualified mindfulness teacher, this state-of-the-art guide is designed for students in all areas of health care and includes a fully searchable eBook version with each print purchase that provides links to numerous videos. Patient-centered care approach utilizes the ISLEEP model: Introduce, Solicit, Listen, Empathize, Explain, and Power, which encompasses not only consultations but also hands-on procedures. Trauma-sensitive mindfulness practices are tailored to health care professionals and patients and help in integrating EASE: equanimity, attentiveness, self-awareness, and empathy into practice. Evidence-based interventions are based on current pain theory and include mindfulness techniques, non-pain stimuli, and active distraction. Case studies highlight challenging situations faced by health care professionals and patients and how to navigate them with ISLEEP communication skills. Procedure videos provide step-by-step instructions on how to practice mindfulness and other mind-training techniques. Focus on practical application includes opportunities for observation videos, practice simulation exercises, and self-evaluation clinical tools. More than 20 videos demonstrate the ISLEEP method and how to implement it with patients and staff. Over 20 videos demonstrate interventions for procedural pain and anxiety. Tables and Figures highlight key research and concepts throughout the book. eBook version is included with print purchase. The eBook allows you to access all of the text, figures, and references with the ability to search, customize your

content make notes and highlights and have content read aloud It also includes videos of meditation practices communication skills and interventions for procedural pain and anxiety [Living a Metaphysical Life: A Mother's Legacy for Her Family](#) Marsha Moore,2015-08-19 Part memoir part love letter part journey into metaphysics I did not set out to live a metaphysical life All I wanted was to lead a normal life Because of all the unusual circumstances surrounding my childhood I wanted normalcy more than anything But sometime during my young life I began to have dreams and precognitions These experiences changed my reality forever gave me the courage to journey to my soul and led me on a voyage through metaphysics in an attempt to understand my psychic life This book records my journey including life events contemplations psychic dreams and religious experiences I lived part time with a Baptist family early in life followed by years of Catholic school education from grade school through high school Studying metaphysics in my twenties exposed me to Eastern philosophy Ultimately I was able to reconcile my psychic experiences and Eastern perspectives with my Catholic beliefs
