Hensel, Katia Perini, 2022-05-09 This book collects ground-breaking works on the actual and potential impact of big data and data-integrated design for resilient urban environments, including human and ecology-centred perspectives. Comprehending and designing for urban social, demographic and environmental change is a complex task. Big data, data structuring, data analysis, i.e. AI and ML, and data-integrated design can play a significant role in advancing approaches to this task.
