Let's Talk AI Barbara Steffen, Edward A. Lee, Bernhard Steffen, 2025-10-27 This unique open access volume represents an interdisciplinary dialog with top class researchers and practitioners on the Artificial Intelligence revolution The contributions derive from structured interviews with community leaders who examine recent developments in AI and offer predictions about its impact on science technology business and society The interviewees leading thinkers and practitioners from fields such as Computer Science Software Engineering Philosophy Psychology and Law gathered at the multidisciplinary event AISoLA where they discussed developments in AI technologies tools and research and these exchanges were shaped into this coherent survey In the debates surrounding the rapid advancement of AI it s clear that while there is much sharing of ideas in fact true cooperation and alignment is rare most fields still operate in silos Given the pervasive nature of AI it s critical that we move forward carefully to ensure that our decisions and progress are well considered This book serves as a call to action reminding us of our collective responsibility to shape the future The authors offer points of agreement and contrast the reader will better understand how we may still maintain control over technological progress in AI and its societal impact **Handbook of Research on Equity in Computer Science in P-16**

Education Keengwe, Jared, Tran, Yune, 2020-11-13 The growing trend for high quality computer science in school curricula has drawn recent attention in classrooms With an increasingly information based and global society computer science education coupled with computational thinking has become an integral part of an experience for all students given that these foundational concepts and skills intersect cross disciplinarily with a set of mental competencies that are relevant in their daily lives and work While many agree that these concepts should be taught in schools there are systematic inequities that exist to prevent students from accessing related computer science skills The Handbook of Research on Equity in Computer Science in P 16 Education is a comprehensive reference book that highlights relevant issues perspectives and challenges in P 16 environments that relate to the inequities that students face in accessing computer science or computational thinking and examines methods for challenging these inequities in hopes of allowing all students equal opportunities for learning these

skills Additionally it explores the challenges and policies that are created to limit access and thus reinforce systems of power and privilege The chapters highlight issues perspectives and challenges faced in P 16 environments that include gender and racial imbalances population of growing computer science teachers who are predominantly white and male teacher preparation or lack of faculty expertise professional development programs and more It is intended for teacher educators K 12 teachers high school counselors college faculty in the computer science department school administrators curriculum and instructional designers directors of teaching and learning centers policymakers researchers and students *Transformative AI Practices for Personalized Learning Strategies* Kyei-Blankson, Lydia, Ntuli, Esther, 2025-04-24 AI revolutionizes education and transforms learning strategies catered to students personal needs Through adaptive learning algorithms and intelligent tutoring systems AI enhances the educational experience by customizing content and increasing the speed at which each student can learn based on their individual strengths and challenges This approach improves engagement and knowledge retention while fostering diverse learning styles As AI evolves its role in education promises to create more dynamic inclusive and effective learning environments for the future *Transformative AI Practices for Personalized Learning Strategies* explores how AI is rapidly transforming into a necessary tool in the field of education It examines best practices for integrating AI tools into teaching and presents examples from different educational settings demonstrating successful usage of AI tools This book covers topics such as education technologies artificial intelligence and ethics and law and is a useful resource for educators academicians researchers engineers and scientists

The Awkward Questions in Education AI

Kingsley, 2025-04-30 Schools and systems face unprecedented challenges such as falling attendance recruitment and retention issues the validity of external monitoring of schools and the advent of artificial intelligence AI In *The Awkward Questions in Education AI* Kingsley tackles the tough often avoided issues plaguing the sector today Drawing on over 35 years of experience Kingsley explores the deep seated challenges that many in education encounter daily and opens critical conversations that we need to have if we re to enact real sustainable change Chapters address key questions such as the following Are we teaching students the right skills for the future Do we need more and different spaces to improve attendance and engagement Is the system truly inclusive How should we handle the integration of AI in classrooms What can be done to solve the ongoing teacher recruitment and retention crisis Featuring interviews with key stakeholders including school leaders policy makers teachers and governors this is a must read for school leaders multi academy trusts MATs teachers governors trustees and anyone passionate about the future of education

Embedding Artificial Intelligence into ERP Software Siar Sarferaz, 2024-05-30 This book explains how to embed artificial intelligence in digitized business processes of ERP software by solving the two related substantial challenges how can artificial intelligence be systematically integrated into ERP business processes for ease of consumption and how can artificial intelligence be made enterprise ready by covering ERP qualities like compliance lifecycle management extensibility or scalability As a general introduction the first

part of this book takes the reader through a historical journey towards intelligent ERP systems. In addition, reference processes and a reference architecture for ERP systems are proposed which build the foundation for the suggested subsequent solution concept including a method for operationalizing intelligence for ERP business processes. Subsequently, in the second part, detailed concepts of embedding artificial intelligence into ERP software are proposed. In this context, the suggested solution architecture is depicted and specific topics are resolved like data integration, model validation, explainability, data protection and privacy, model degradation and performance. In the last part, an implementation framework is suggested which enables the previously introduced concepts and harmonizes the development and operations of artificial intelligent ERP applications. This part concludes with case studies considering artificial intelligence scenarios of SAP S/4HANA in the areas of logistics, finance and sales which apply the defined solution approach and shows its real world feasibility. This book is written for professionals who want to implement as developers or exploit as business analysts or consultants or consider plan the implementation, exploitation as managers of artificial intelligence in business information systems.

Advanced Technologies, Systems, and Applications X Naida Ademović, Zlatan Akšamija, Almir Karabegović, 2025-10-19. This book presents the proceedings of the 16th Days of the Bosnian Herzegovinian American Academy of Arts and Sciences BHAAAS held in Sarajevo, Bosnia and Herzegovina from June 19-22, 2025. The Conference Proceeding Book showcases the outcomes of seven dynamic technical sessions covering a broad spectrum of topics: AI Across Disciplines, Transformative applications in various fields, civil engineering, mechanical engineering, advanced electrical power systems, data science and geographic information systems, information and communication technologies. Every session provides insightful information on recent developments, research trends and new inventions. This publication encourages interdisciplinary discussion and cooperation by combining contributions from various subjects which reflects BHAAAS's dedication to connecting scientific communities across disciplines. The editors sincerely thank all symposium chairs for their valuable contributions to this book.

Affiliate Marketing Reloaded Ryan T. Maddox, 2025-11-04. Are you tired of chasing affiliate trends that don't convert or worse, burn out your time and energy with zero results? *Affiliate Marketing Reloaded* is your no-hype, smart strategy guide to building reliable, scalable passive income through affiliate marketing without needing a big audience, tech skills or paid ads to start. Whether you're a beginner or restarting from scratch, this book delivers a practical blueprint that aligns with today's algorithm-driven platforms and content economy. Inside, you'll learn how to: Choose a profitable niche that balances passion, problem-solving and demand; Identify high-converting affiliate products that sell on autopilot; Join top affiliate networks like Amazon, ClickBank, ShareASale and more; Build a simple, effective funnel that earns while you sleep; No blog needed: Create content that ranks, converts and grows trust even if you're not a writer; Leverage free traffic from YouTube, TikTok, Pinterest, Reddit and Quora; Automate emails, repurpose content and scale with smart AI tools; Avoid platform bans, burnout and common rookie mistakes that sabotage success. What sets this book apart? It's grounded in

real world case studies ethical marketing practices and a less hustle more strategy approach to online income This is not another recycled ebook full of fluff it s a roadmap designed for sustainable results and built with the long game in mind If you ve struggled to make affiliate marketing work or you re looking to re enter the game with clarity and purpose Affiliate Marketing Reloaded is your reset button Start building a real affiliate business one that earns while you sleep scales without burnout and actually makes sense
