The New View Over Atlantis:

The New View Over Atlantis John Michell, 2013-11-01 John Michell's highly controversial *The View Over Atlantis* was first published in 1969. This unrivaled introduction to megalithic science, earth mysteries, and sacred geometry was expanded and updated in *The New View Over Atlantis* in 1983. Now available in a fresh new package, this classic seminal work offers an impressive body of evidence and arguments to support the theory that at one time many thousands of years ago there was a worldwide highly sophisticated civilization that Plato referred to as Atlantis. Michell, one of the premier esoteric writers of the 20th century, reveals that ancient stone monuments and earthworks found around the globe are not randomly strewn but are a well-executed system of psychic centers connected worldwide and used by the people of Atlantis. Michell also demonstrates the significant modern discovery of leys, a mysterious network of straight lines that link the ancient places around the world. He carefully and thoroughly documents the research that points to these ancient sites as places of high magic.

The New View Over Atlantis John F. Michell, 1983 Discusses leys, the mysterious straight line alignments of prehistoric sites and natural landmarks and points out the significance of numbers in the construction and structure of prehistoric monuments.

The Re-Enchantment of the West Christopher Partridge, 2005-03-04 As a book about emergent spirituality in the contemporary West, it focuses on the nature, evolution, and significance of new forms of religion and alternative spiritualities. Part One of the book provides the theoretical background and guides the reader through some of the principal debates. After an overview of the secularization thesis, which argues that the West is becoming increasingly disenchanted, the second chapter turns to the sociological analysis of new religions and alternative spiritualities. Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch, especially his enigmatic analysis of the emergence of mystical religion, which presciently provides helpful insights into understanding the contemporary alternative religious milieu. Against sociologists such as Bryan Wilson and Steve Bruce, this and the subsequent chapter argues that rather than being insignificant, new forms of spirituality are actually proving to be a significant part of Western re-enchantment. Chapter 3 constructs a general theory of the re-enchantment of the West. Chris Partridge argues that Western Society is permeated by a broad occulture, by which he means a reservoir of ideas, beliefs, theories, and practices to which new religions, unorthodox spiritualities, film, and popular music all draw attention. This re-enchantment of the West should not be seen as a superficial secondary development in the shadow of Christianity. In many ways, it is a religious phenomenon in its own right. Partridge's arguments in this regard are well put, and I warmly welcome this timely book.
