Beyond the Firmament Gordon J. Glover, 2007 As debates within the Church over the scientific details of creation become more frequent the experts seem to grow more entrenched while the rest of us only become more confused Somewhere between the endless arguments over distant starlight and Carbon 14 dating calculating the mathematical improbabilities of things that already exist and parsing ancient Hebrew and Greek somebody needs to ask the simple question If 3 500 years of scientific progress can't help modern Christians figure out Genesis then how could the ancient Israelites possibly have understood it so well What secret did this newly liberated gaggle of Hebrew nomads take with them

out of Egypt that holds the key to understanding God's telling of His own creation story. Beyond the Firmament challenges all creationist camps whether Young Earth, Old Earth, or Theistic Evolutionist to step outside of traditional paradigms and recognize how our modern Western post-Enlightenment scientific worldview actually blinds us from seeing the simple truth of Creation as it was originally intended and how our failure to grasp the theological significance of the Biblical creation model puts science and faith on a collision course.
