Dance With Me Imani Price,2023-08-11 Step One Learn to dance Step Two Don t fall in love Nevaeh has always danced her way through life metaphorically speaking Her zest for life is infectious and she is known for being the life of the party and for her two left feet She has no sense of rhythm and jests that when she s dancing people think she s having a seizure When her best friend gets engaged she couldn t be more thrilled that is until she finds out there s a stipulation to being the maid of honor Nevaeh must learn how to dance As if that isn t bad enough her dance instructor is sinfully handsome And completely off limits Sean s life is what you might call complicated which is one of the many reasons he loves dancing The rhythm The control You know the steps you lead or you follow It s a simple escape from his world of order That is until a beautiful bundle of chaos comes stumbling through his studio doors He never expected to feel such a spark with a student Nevaeh is everything he could ever want and more but as a single parent his life isn t just his own Still with every lesson she twirls herself a little further into his life and his heart The time for dancing around his feelings is over If you like sassy fun loving romances with single dads strong friendships and relatable heroines you ll love Dance With Me This is a sweet romance standalone taking place in the small town of Sweetgum Meadows Scroll up and grab your copy now **No**

Make / Believe John Hartley,2025-01-23 This book illustrates that mediated popular culture and science based knowledge systems entangled and compromised as both have become are still a robust crucible for system change for the future when they combine forces Planetary crises require responses from everyone This means that collective action is not simply a scientific or political problem It is a problem of culture and media But modern politics journalism and science were not designed for global climate action They ve divided humans into competitive and often hostile we and they groups Identity news and knowledge are all weaponized Culture makes groups groups make knowledge and knowledge makes enemies What can be done to prevent global conflict and the drift to war Make Believe turns to popular culture and social media to argue for an alternative storyline While the Great Powers are making new enemies emergent classes led by children are using planetary connectivity to make new worlds A digital planet generates new kinds of strategic stories for pan human action based on difference intersectionality and cooperation for a sustainable Earth system Make Believe shows how alternatives to the Great Game of global contestation are gathering strength in unlikely places among women children lifestyle and pop culture Popular digital media literacy is now a prerequisite for the remediation of the planet **Well, Actually** Mazey Eddings,2025-08-05 Mazey Eddings s writing is authentic emotional and intensely romantic To me it s like a Taylor Swift song in book form ALI HAZELWOOD Falling for your ex is a bad idea right Ex s to lovers Fake dates Second chance Set in
