Solidarities Beyond Borders Transnationalizing Womens Movements:

Solidarities Beyond Borders Pascale Dufour, Dominique Masson, Dominique Caouette, 2010-08-01 Scholars of social movements tend to overlook the achievements and political significance of women's movements. Through theoretical discussions and empirical examples *Solidarities Beyond Borders* demonstrates the creativity and dynamism of transnational women's movements around the world. These timely case studies from North America, Latin America and Southeast Asia introduce feminists, activists and scholars to the benefits and challenges of building relationships, dialogues and perspectives that extend beyond the boundaries of nation states and disciplines. The contributors open a dialogue between feminist theorists and scholars of social movements in other disciplines in order to foster mutual recognition of common interests and identities. Although feminists and women's groups face challenges as they build solidarities beyond borders, this book makes the case that these links can be extended to embrace other progressive movements and their goals. **Global Solidarity**

Lawrence Wilde, 2013-01-16 Explores the potential of globalisation to provide the conditions for a harmonious global community. Lawrence Wilde introduces the concept of global solidarity and explains how it relates to nationalism, gender, religion and culture. Looking to the future, he explores the politics of global solidarity and the conditions required for its development. Solidarity has been a mobilising word since entering the political vocabulary in the mid 19th century and conjures images of united action in pursuit of social justice. But is solidarity among strangers a meaningful aspiration in our globalising age? **Women in Southeast Asian Nationalist Movements** Susan Blackburn, Helen Ting, 2013-07-31 Books on Southeast Asian nationalist movements make very little if any mention of women in their ranks. Biographical studies of politically active women in Southeast Asia are also rare. *Women in Southeast Asian Nationalist Movements* makes a strong case for the significance of women's involvement in nationalist movements and for the diverse impact of those movements on the lives of individual women activists. Some of the 12 women whose political activities are discussed in this volume are well known, while others are not. Some of them participated in armed struggles, while others pursued peaceful ways of achieving national independence. The authors show women negotiating their own subjectivity and agency at the confluence of colonialism, patriarchal traditions and modern ideals of national and personal emancipation. They also illustrate the constraints imposed on them by wider social and political structures and show what it was like to live as a political activist in different times and places. Fully documented and drawing on wider scholarship, this book will be of interest to students of Southeast Asian history and politics as well as readers with a particular interest in women, nationalism and political activism.

transforming public discourses Yet this principle remained fiercely contested and moderate and conservative actors responded by foregrounding notions of reproductive responsibility or the expectation that individuals perform the right sexual and family making behaviour benefiting not only themselves and their families but the nation at large Such responsibilisation underpinned the legal reforms of the 1960s 70s framing a notion of reproductive citizenship based on a tension between individual rights and social norms This book breaks new ground by taking an intersectional approach to the defining moments of this period the legalisation of contraception the laws of 1967 and 1974 and the liberalisation of abortion 1975 1979 Drawing on a wide range of sources and actors including feminist and family planning movements government actors demographers medical professional organisations disability rights groups and key actors in the overseas departments Maud Bracke demonstrates how the discourse of responsibilisation allowed actors to distinguish between citizens worthy of reproductive rights and those seen as less worthy Bracke analyses the distinct regulations regarding contraception in the overseas departments of Guadeloupe and Martinique framed by racialised anti natalism The book also demonstrates that disability rights organisations contributed to the discrediting of the notion of eugenic abortion used among experts and policy makers until the early 1970s Furthermore Bracke goes on to highlight the silence in the feminist movement around both disability rights and race as part of its universalisation of women s conditions of oppression and analyses the emergence of Black Feminism in late 1970s France In so doing the book offers a major contribution to the history of sex gender family life healthcare demography and political debate in post war France and more generally
