Installing BizTalk360 - What are the options

One of the common questions that customers raise to us is about the various deployment choices for BizTalk360. This is one of the common questions we have seen recently on our customer engagements. Here are the options:

- **option 1** - Installation on the BizTalk Server environment
- **option 2** - Installation on a stand-alone server

Option 1 - Installation on the BizTalk Server environment

You can install BizTalk360 in one of the BizTalk Server environments (production, non-production etc) and configure all the environments using the administration module. The user can then access BizTalk360 via a URL (something like <http://production/biztalk360>) and access all the configured environments. The super user will have the ability to assign various fine-grained authorization to the users for various environments using [Team Management](#) which can be found in the General Settings section.
