Student Guide Excelsior:

A Classroom of One Gene I. Maeroff, 2025-09-23 A Classroom of One is Gene Maeroff's report from the front on the short history and status of online learning in the United States and around the world. Maeroff is a reporter who takes you to the schools from Penn State's World Campus to the Florida Virtual School to the newly emerging online learning initiatives in Afghanistan. His journey ultimately provides a snapshot of the way in which technology is changing the minds of people with regard to the nature of higher education. He looks at the method of electronic delivery, the quality of the information being delivered, and quality of interaction it engenders. He looks at the way learners are adapting to this new technology and how much responsibility is put on the student's shoulders. Finally, and maybe tellingly, he looks at the business of online learning.

Exemplars of Assessment in Higher Education, Volume Two Jane Marie Souza, Tara A. Rose, 2023-11-09 In this second volume of the successful *Exemplars of Assessment in Higher Education* editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions including international contributions. Building upon the work of the first volume, the case studies in this book reflect the changes in assessment and higher education in the post-Covid education environment. The institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas: career readiness, distance education, diversity, equity, and inclusion, or general education. Each part of the book discusses one of these four areas with chapters that feature real-life examples from the educators who teach at the college or university. Featuring a Foreword by AACU President Lynn Pasquerella, the work highlighted in this book is also aligned with AACU's Valid Assessment of Learning in Undergraduate Education (VALUE) initiative to help educators make the best decisions about measuring student learning. This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices. A Co-Publication with AACU. **Resource Management**, 2001 2001 Guide to Educational Credit by Examination Jo Ann Robinson, Jacqueline E. Taylor, 2001 **Guide to English spelling** John Russell (F.E.I.S.), 1869 **2004-2005 Guide to Educational Credit by Examination** Jo Ann Robinson, Troy Polite, Nancy Musick, 2004 *A Guide to College Success for Post-traditional Students* Henry S. Merrill, 2018-08-01 The purpose of this book is to assist post-traditional students to achieve success in the Occupational Workforce and Leadership Studies (OWLS) Department and develop their individualized pathway to earn the interdisciplinary Bachelor of Applied Arts and Sciences (BAAS) degree at Texas State University. Applied baccalaureate degrees incorporate higher-order thinking skills and advanced technical knowledge and skills with applied coursework. BAAS students may also earn college-level credits through prior learning assessment (PLA) evaluating and credentialing knowledge and skills gained outside the classroom. The organization and content of this book provides adult degree program faculty and leaders an example of how one required textbook develops and supports the outcomes and activities in all the core courses of an interdisciplinary degree program designed for post-traditional adult learners. The

majority of the students earning the BAAS degree are post traditional students They are often defined with some or all of these characteristics over age 25 years old when starting or returning to college may not have a traditional high school diploma enroll part time work full time are financially independent have dependents other than a spouse and may be a single parent These students juggle multiple roles and responsibilities in the family workplace and community Post traditional students bring rich work life experiences may be experiencing personal and or professional transitions have clear career goals and often finance their education They seek flexible programs including online education PLA and accelerated course formats Thus post traditional students want active collaborative and interactive learning relevant to career and other roles and goals

Courageous Learning John Ebersole, William B. Patrick, 2011 The true majority of American students are working age adults Approximately 80% of those who need to start or finish a degree are over 25 years old yet most institutions of higher education treat them as an afterthought Courageous Learning offers a closer look at the needs of adult learners and provides a clear comprehensive assessment of the adult higher education landscape Courageous Learning underscores an urgent need for Americans to embrace a culture of lifelong learning It is an invaluable tool for adults making the connection between learning and life success and it is a must have resource for educators who recognize our country's future is dependent on the ability to attract and support more courageous learners I applaud institutions like Excelsior and Western Governors University for being on the cutting edge and for developing better ways to meet customers where they are Going back to school is one of the most important most expensive and most impactful decisions that many of us ever make Hopefully this book will help returning adults make choices that are right for them Margaret Spellings 8th United States Secretary

Electronic Learning Communities Issues and Practices Sorel Reisman, 2003-04-01 This book focuses on electronic learning communities created through the development and use of the Internet for instruction and training The chapters focus on philosophies background reviews technologies systems tools services strategies development implementation research and guidelines for implementers and each illustrates the chapter theme with a detailed example of best practices
