Entrepreneurship Roadmap 2025 Edition:

The TOGAF® Standard, 10th Edition - Business Architecture - 2025 Update The Open Group, 2025-06-30
This document is a compilation of TOGAF Series Guides addressing Business Architecture. It has been developed and approved by The Open Group and is part of the TOGAF Standard 10th Edition. It consists of the following documents:
TOGAF Series Guide Business Models: This document provides a basis for Enterprise Architects to understand and utilize business models which describe the rationale of how an organization creates, delivers, and captures value. It covers the concept and purpose of business models and highlights the Business Model Canvas™ technique.
TOGAF Series Guide Business Capabilities Version 2: This document answers key questions about what a business capability is and how it is used to enhance business analysis and planning. It addresses how to provide the architect with a means to create a capability map and align it with other Business Architecture viewpoints in support of business planning processes.
TOGAF Series Guide Value Streams: Value streams are one of the core elements of a Business Architecture. This document provides an architected approach to developing a business value model. It addresses how to identify, define, model, and map a value stream to other key components of an enterprise's Business Architecture.
TOGAF Series Guide Information Mapping: This document describes how to develop an Information Map that articulates, characterizes, and visually represents information that is critical to the business. It provides architects with a framework to help understand what information matters most to a business before developing or proposing solutions.
TOGAF Series Guide Organization Mapping: This document shows how organization mapping provides the organizational context to an Enterprise Architecture. While capability mapping exposes what a business does and value stream mapping exposes how it delivers value to specific stakeholders, the organization map identifies the business units or third parties that possess or use those capabilities and which participate in the value streams.
TOGAF Series Guide Business Scenarios: This document describes the Business Scenarios technique, which provides a mechanism to fully understand the requirements of information technology and align it with business needs. It shows how Business Scenarios can be used to develop resonating business requirements and how they support and enable the enterprise to achieve its business objectives.
Reactions from other readers: A quality hard copy of the TOGAF method is easier to read than endless HTML docs or huge PDFs. The TOGAF framework has become the de facto standard for developing Enterprise Architectures. A good one-stop shop guide and toolsets for getting your Enterprise Architecture right. A lot of thought, experience, and funding have gone into this, and the results are well worth the price you pay for the book, and the actual accreditation should you or your organization wish to go down that route. Amazon Comment: It still is the best documented Enterprise Architecture method publicly available. The book is of high quality binding and will endure browsing through the pages for a long time. Republic of Kazakhstan: 2021 Article IV Consultation-Press Release; Staff Report; Staff Statement; and Statement by the Executive Director for Kazakhstan International Monetary Fund. Middle East and Central Asia Dept.,2022-04-11 Activity returned to its pre COVID level in 2021 Inflation remains well above the NBK s 4 6 percent target band and spillovers from sanctions on Russia will exacerbate price pressures and weaken economic growth

in 2022 Kazakhstan benefits from strong fiscal and external buffers but risks to the outlook are elevated due to the uncertain impact on Kazakhstan of the sanctions on Russia and heightened domestic tensions since the January social unrest episode In the medium term non oil growth under the baseline is expected to converge to about 4 percent Sustainable growth will require greater economic diversification Climate related challenges are acute for Kazakhstan given its outsized hydrocarbon sector high per capita greenhouse gas emissions and low domestic energy prices

Entrepreneurship in India Deependra Sharma, 2022-10-06 This book introduces readers and students to the entrepreneurial process It is important as evidence has suggested that the probability of entrepreneurs success enhances when they thoroughly appreciate the components of the entrepreneurial process as well as how to effectively use them The fact that nearly 33 percent of new firms fail within the first two years while twenty percent fail within four to five years of their existence makes it evident that while many people are highly motivated to start new firms motivation alone is not sufficient rather it should be coupled with relevant information a strong business idea a well crafted business plan and sound execution to maximize chances for success This work offers an insightful and a practical guide to the process of launching and growing an entrepreneurial organisation with success It will therefore serve as an important resource to students of Entrepreneurship and to anyone interested in the field academically or practically
