Still Working While Black Antione D. Tomlin, 2023-06-01 Just as the first edited volume of this book Working While Black The Untold Stories of Student Affairs Practitioners examined student affairs professionals narratives and how they navigate their professional experiences this one has a similar aim This new volume birthed from the overwhelmingly positive feedback and massive interest from other Black professionals needing to share and tell their stories So with that in mind a goal of this book is to share more of the untold stories of Black student affairs practitioners by Black student affairs practitioners Tomlin 2022 p X This book crafted from an asset based approach chapter authors share the challenges and opportunities they have experienced due to being a Black while working as a student affairs practitioner Additionally chapter authors provide poignant advice on how current and potential student affairs professionals can successfully navigate the field Authors within the book are from various student affairs areas and have a wide range of knowledge expertise and lived experiences Such areas include Greek Life Residence Life Athletics International Student Support Diversity Access Career Services Financial aid Enrollment and more Given the

depth and breadth of experiences and expertise each chapter will provide poignant suggestions for student affairs practitioners across the nation and institutions looking to understand these experiences to support their employees better. College campuses and spaces operate as models of the greater society. Therefore all of the challenges and issues of racism, discrimination, and anti-Blackness are present. Rankin et al 2017. While students experience these challenges and issues first hand so do the folks hired to support students the student affairs practitioners. Kanagala and Oliver 2019 claimed that for institutions of higher education to be equitable and inclusive college administrators, faculty, and staff including student affairs professionals must attend to the needs of students especially students with multiple marginalized identities. p 410. I argue the same is accurate in creating more equitable and inclusive spaces for student affairs employees. Student affairs practitioners Blackness must be accepted to move toward equity and inclusivity. So this book roars student affairs and white colleagues please respect our Blackness. Our Blackness is a part of our story not yours. Tomlin 2022 p 176. Higher education institutions can learn much from the stories shared in this book that can inform the recruitment and retention of Black professionals. Thus *Still Working While Black: The Untold Stories of Student Affairs Practitioners* is a must read for all higher education professionals and institutions looking for strategies to support Black student affairs practitioners.

Voices of the Field

Antione D. Tomlin, Sherella Cupid, 2023-07-01. This book *Voices of the Field: DEIA Champions in Higher Education* will explore the experiences and stories of Diversity, Equity, Inclusion, and Anti-racist DEIA champions and leaders within higher education. There is no doubt that in response to the United States' current racial climate that higher education institutions have DEIA at the forefront of their operations. Consequently as a Black academic or Blackademic educator and DEIA champion I am not sure I always see institutions and organizations walking the walk and doing the work it takes to live up to those missions, visions, and strategic plans. Tomlin 2022 para 1. From our experience this is partly because institutions do not know how to support and encourage all higher education professionals no matter working area, gender, or race to become more DEIA minded. So this book will share stories of champions of DEIA along with how other higher education professionals jump in. Like some of our other projects we approach this book from an asset-based approach where chapter authors are taking more of an anti-deficit approach. So while each chapter author will explore the challenges and opportunities that come with being a DEIA champion within higher education we will not focus entirely on what higher education institutions are doing wrong rather how the tools, tips, and strategies provided can help support current

and potential champions of the work and field One especially important contribution of this book is that authors come from many different spaces departments and divisions within higher education including admissions student life curriculum and instruction service learning alumni relations career services intercultural affairs and many others Additionally chapter authors demographics make up a wide range of ages ethnicities abilities and expertise Given the breadth of experiences each chapter will provide poignant suggestions for DEIA champions across the nation as well as for institutions who are looking to better understand advocate for support their own DEIA champions The work of DEI practitioners is a work that often goes unnoticed The long days nights exhaustion and lack of mental capacity due to constant going and potential burnout is the price practitioners pay to fight the fight of creating more equitable spaces Griffin 2021 noted The DEI practitioner is becoming a household name in some industries like education an emerging staple p xxv we agree with Griffin moreover these household names are not getting the attention respect or resources they need to continue being successful in their roles Additionally we add anti racist to DEI as being anti racist is an action We argue it is the action that brings all the other pieces of the work together Its the demonstration and active practice of fighting against racism that helps to shift and change a culture This book will aid in showing all higher education professionals some approaches to being more effective DEIA champions while also taking action and moving more toward anti racism as a mindset and way of being Thus Voices of the Field DEIA Champions in Higher Education is positioned to be a must read for all higher education professionals and institutions who are looking for strategies to support promote and encourage the growth and development of DEIA champions

Learning While Black Janice E. Hale, 2001-12-04 In Learning While Black Janice Hale argues that educators must look beyond the cliches of urban poverty and teacher training to explain the failures of public education with regard to black students Why Hale asks simply are black students not being educated as well as white students Hale goes beyond finger pointing to search for solutions Closing the achievement gap of African American children she writes does not involve better teacher training or more parental involvement The solution lies in the classroom in the nature of the interaction between the teacher and the child And the key she argues is the instructional vision and leadership provided by principals To meet the needs of diverse learners the school must become the heart and soul of a broad effort the

coordinator of tutoring and support services provided by churches service clubs fraternal organizations parents and concerned citizens Calling for the creation of the beloved community envisioned by Dr Martin Luther King Jr Hale outlines strategies for redefining the school as the Family and the broader community as the Village in which each child is too precious to be left behind In this book I am calling for the school to improve traditional instructional practices and create culturally salient instruction that connects African American children to academic achievement The instruction should be so delightful that the children love coming to school and find learning to be fun and exciting Janice Hale **Together We**

March Leah Henderson, 2021-01-19 March through history and discover twenty five groundbreaking protest movements that have shaped the way we fight for equality and justice today in this stunningly illustrated and sweeping book For generations marches have been an invaluable tool for bringing about social change People have used their voices the words on their signs and the strength in their numbers to combat inequality oppression and discrimination They march to call attention to these wrongs and demand change and action from a local to a global scale Whether demanding protective laws or advocating for equal access to things like voting rights public spaces and jobs the twenty five marches in this book show us that even when a fight seems impossible marching can be the push needed to tip the scales and create a movement This gorgeous collection celebrates this rich and diverse history the often overlooked stories and the courageous people who continue to teach us the importance of coming together to march today Redeeming the South Paul Harvey, 2000-11-09 Together and separately

black and white Baptists created different but intertwined cultures that profoundly shaped the South Adopting a biracial and bicultural focus Paul Harvey works to redefine southern religious history and by extension southern culture as the product of such interaction the result of whites and blacks having drawn from and influenced each other even while remaining separate and distinct Harvey explores the parallels and divergences of black and white religious institutions as manifested through differences in worship styles sacred music and political agendas He examines the relationship of broad social phenomena like progressivism and modernization to the development of southern religion focusing on the clash between rural southern folk religious expression and models of spirituality drawn from northern Victorian standards In tracing the growth of Baptist churches from small outposts of radically democratic plain folk religion in the mid eighteenth century to conservative and culturally dominant institutions in the twentieth century Harvey explores one of the most impressive evolutions of American religious and cultural history **The New African Diaspora** Isidore Okpewho, Nkiru Nzegwu, 2009-08-26 The New York

Times reports that since 1990 more Africans have voluntarily relocated to the United States and Canada than had been forcibly brought here before the slave trade ended in 1807 The key reason for these migrations has been the collapse of social political economic and educational structures in their home countries which has driven Africans to seek security and self realization in the West This lively and timely collection of essays takes a look at the new immigrant experience It traces the immigrants progress from expatriation to arrival and covers the successes as well as problems they have encountered as

they establish their lives in a new country The contributors most immigrants themselves use their firsthand experiences to add clarity honesty and sensitivity to their discussions of the new African diaspora
