The God Particle Bible Michael Mathiesen, 2016-10-09 It should be obvious even to the Scientists that discovered the God Particle otherwise known as the Higgs Boson that only some form of God would be the one to send out all of his particles But too many of us are so objective and jaded that we miss the most obvious lessons in Science right in front of our eyes The God Particles were the first of such things created during the Big Bang and we know this because it is only the God Particle that can give all of the other particles their mass Not only in the subatomic world but all of our lives depend on the God Particle Field remaining in effect from the beginning of Time all the way to the end of Time And if it was the first thing to be created in the universe by the Creator of the universe do we not owe this most amazing event in the history of the universe just a little more investigation and perhaps even reverence When you look at the universe both to the outside of us or to the inside of us you see the magnificent footprints and fingerprints of a master Creator Nothing is more obvious than the fact that the way things snap together so perfectly can't possibly be an accident or a random series of events There is an obvious pattern to it so God's Particles the ones in the center of the current model of the common understanding of Physics and subatomic physics had to have something in the middle like a keystone for a building something that keeps it all together and in this model we finally have reality cemented together or at least most of it Today they are saying there may be a Fifth Force in the universe and a particle that carries it But in order to understand that fifth force should it prove to be real we need to fully understand the God Particle first This book is for anyone who has ever wondered why major events take place in their lives for which there seems to be no explanation The explanation is clear now thanks to the discovery in Geneva Switzerland in 2012 using the

most expensive scientific apparatus in history the Large Hadron Collider to discover the God Particle God is no longer just a myth and part of a mythology no longer is God based on fairy tales or stories in children s books God is now based on the best Scientific exploration that is possible using the human mind The God Particle it turns out is the most basic fundamental force that makes everything in the universe happen according to a plan Since the discovery of this amazing new energy we now have at our disposal a pathway to finding our source Since the God Particle was the first thing created by the Big Bang and since it gives everything else in the universe it s mass the stuff that makes things matter it is simple logic to see that the God Particle Field is the way that God promulgates his will all over the universe That means these particles are constantly working to create all of our life s events in such a way that follows God s laws especially the ones we call the Laws of Physics The good news is that anyone can understand these laws and use them to their own advantage You don t need a Ph D in any scientific discipline to fully appreciate these concepts All you need is a little bit of curiosity as to how the universe works and your place in it The God Particle Bible is a new Book that will take you on an adventure in Science where they have proven the existence of God Not only has Science proven the existence of God in the manner of the discovery of the God Particle but they have shown us how God works his miracles in our daily lives This book authored by noted Science Fiction writer Michael Mathiesen is the first of its kind to describe not only how God works but also where God lives The author presents us with an entire new form of Technology that anyone can learn to use to exploit the greatest Force in the universe to alter one s fate or change their own destiny as well as the destiny of our entire civilization The Force mentioned in Star Wars actually exists It has now been proven to exist The God Particle Bible is the first primer on how to use The Force to benefit the individual life as well as the life of the planet and all future generations
