Award Winning Viral Tiktok Book:

Social Reading Cultures on BookTube, Bookstagram, and BookTok Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature sociology media and cultural studies as well as teachers and professionals in the book and library industries The Problem with Being a Person Talia Pollock, 2025-06-10 Escape the race to happiness build a life of value and resist the pull of self help You ve heard this story outwardly woman was living the dream Inwardly woman was drowning in despair It s what happened next that sets this tale apart Many of us go through life believing that something about us is not normal enough So we devote ourselves to the endless pursuit of self improvement That s what Talia Pollock decided to do In her quest to feel better Talia Pollock got seduced by self help trends that offered fleeting solace but failed to soothe the depths of her inner turmoil Conventional remedies like medication and therapy provided a semblance of relief but didn t ease the angst she felt inside It wasn t until she discovered Existentialist philosophy that she discovered is that what we re told is abnormal is actually entirely human and it s our attempts to cure ourselves of our humanity will eventually drive us mad Echoing the timeless wisdom of philosophers and the timely research of social scientists Pollock offers a modern take on finding the courage to create your own version of satisfaction Pollock s sincere retelling of her own experiences urges readers to question conventional notions of happiness embrace contentment as a lasting source of well being navigate the challenges of a comfortably uncomfortable life Whether you re grappling with existential questions seeking to break free from societal expectations or yearning for a deeper sense of fulfillment *The Problem with Being a Person* offers a powerful message for prioritizing self acceptance over self improvement *Postliterary Attention Theory: Reading, Fragmentation, and Meaning in the Digital Age* Shaikh Afnan Birahim, 2025-09-22 *Postliterary Attention Theory Reading Fragmentation and Meaning in the Digital Age* explores how our ability to read deeply has eroded in an era dominated by feeds fragments and dopamine driven design Blending literary history media theory and cognitive science Shaikh Afnan Birahim traces the journey from modernist experimentation to TikTok snippets showing how attention itself has become a cultural battleground This book is both diagnosis and manifesto

an invitation to reclaim slow reading as an act of resistance and rediscover the joy intimacy and meaning that only literature can provide

The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
