Taking A Different Path:

Taking a Different Path Sofia James, 2021-07-28 Faced with a myriad of trials and tribulations throughout her life Sofia James has refused to allow those experiences to define her Instead she has made it her mission to share her invaluable insight with the sea of others who may be suffering insurmountable torment be it at the hands of others or self imposed Now with the much anticipated autobiography her devoted fans are allowed a glimpse into the events that led her down the path she was destined for This is my story and I believe that this is just the beginning of my journey The LORD told me to go live and share my story and it has been one of the most magnificent experiences of my life As a result of my obedience in that decision I have connected with encouraged and been able to love so many women These women have told me that my story is also their story This is what happens when we are brave When we share our hearts and be open and transparent about our lives experiences and what we have gone through It encourages them to be brave strong and lifts them up I have written and shared my story as a way to encourage support and help my readers see that healing is possible As a lighthouse street light or even a flickering flame lights the way for another My story is a testimony for those who have encountered darkness abuse and neglect My hope is that you will feel a glimmer of life a spark of light and be encouraged to start on your own path to healing

who tell us that impoverished backgrounds are fairly accurate predictors of impoverished futures This book seeks out the stories behind the exceptions those who against all odds have made the American myth of rags to riches a reality For more than ten years Charles Harrington and Susan Boardman explored the life histories of successful Americans forty to fifty five years old those from poor homes whose parents had not completed high school and those from the middle class Comparing the routes to success of these two groups the one by various courses of their own construction the other by a well laid path the authors are able to show where their efforts and qualities diverge and where they coincide Joycelyn Elders and Clarence Thomas are examples of the pathmakers of this work While Paths to Success reveals certain consistencies between these pathmakers approaches and those of their middle class counterparts it also exposes striking differences between men and women blacks and whites These differences fully described here illuminate the ways in which opportunities serendipities and impediments intersect with personal resources strategies and choices to produce success where we least expect it
